COUPLE DROWNED ON PICNIC OUTING

A happy group of picnickers who were enjoying the Labor day holiday on the banks of the San Joaquin river, near Tracy, witnessed a tragedy that brought sorrow to two homes, when Sallie Johnson and Travers Trimble were drowned.

The sereneness of the party was disturbed by a shout of "A boat! A boat! Bring a boat!" Those within hearing distance ran to the point where the voice came from just as a young man, Travers Trimble, sank for the last time, in an heroic effort to save his schoolmate, Sallie Johnson.

The young couple, Sallie, 16 years, and Travers, 17, had wandered away from the other members of their party to wade up the river. They had waded a considerable distance when Sallie, who was in the lead, stepped into a deep hole and sank out of sight. The boy tried to urge the frightened girl to lie on her back and float, but his advice was of no avail. He dove into the water and made every effort to save the drowning girl, but she grasped hold of him and took him down with her.

Members of the Manteca fire department came with grappling hooks and dragged the hole for three hours before recovering Sallie's body. A respirator was used in an effort to bring back a spark of life, but to no avail.

Young Trimble's body was not recovered until Tuesday afternoon. His remains will be brought to San Francisco for burial. Travers Trimble was the son of Mr. and Mrs. Bert Trimble, of 318 Acacia street, San Francisco. Young Trimble had been a student at Jefferson Union high school.

Sallie Johnson was the daughter of Mr. and Mrs. Chris Johnson, of San Diego avenue. Sallie was also a student of Jefferson Union high school. The Johnson family moved to Daly City recently from Sacramento. Sallie's remains were taken to a Sacramento undertaking establishment and funeral and interment will take place in that city.

Mr. and Mrs. Trimble had left for San Francisco less than an hour before the tragedy occurred. The J. W. Allens', of Winchester street, who had taken the older sister, Gladyse Johnson, on the picnic party, were among those from Daly City in the group who waited anxiously for the firemen to recover the bodies of the youthful victims.

The sympathy of the entire community goes out to the bereaved parents.

Driver Seriously Injured in Automobile Accident

Roy Cullen, aged 27, of 316 Hanover street, was seriously injured in an automobile collision on Thursday evening of last week at the intersection of Hanover and Acton streets. Mrs. J. E. D'Brien, of Templeton avenue, who was driving her husbands' Plymouth sedan, the other car which figured in the accident, was uninjured. It is asserted that Mrs. O'Brien declared that Cullen was driving at a high rate of speed on Acton street, tried to swing around her car in the middle of the intersection, lost control of his car and struck the street curbing, overturning his car. He was pinned beneath the wrecked car.

Mrs. O'Brien parked her car and ran to assist the unfortunate driver. Aided by a passeby, she helped to pull him from beneath the car.

Cullen was removed to the Mission Emergency hospital in a serious condition. At present writing he is still in a state of coma, with only short intervals of consciousness.

Mrs. O'Brien, it is asserted, was driving west on Hanover street, at a speed of about 15 or 20 miles an hour.

MAYOR SMITH'S DAUGHTER WEDS

Miss Evelyn Smith, daughter of Mayor and Mrs. H. H. Smith, of Los Olivos avenue, became the bride of Harold Purser, of San Jose, on Saturday, September 3, in Carson City, Nevada. Mr. and Mrs. Purser, both graduated from Jefferson Union high school and have many friends in Daly City who will wish them much happiness in their journey through life togeter. Miss Smith has been teaching in Gonzales for some time past, and will continue teaching. Mr. Purser has been employed with the State Highway Commission.

Weinie Roast Enjoyed By Local Presbyterians

Last Friday evening about fifty of the younger attenders of Grace Presbyterian church enjoyed a weinie roast at the beach. A monstrous bonfire was built on the beach and watermelons, weinies, rolls and marshmallows were the prime features of the menu. The meet was in charge of Miss Mildred Swan.

GRAMMAR SCHOOL HAS 1,695 PUPILS

District Superintendent R. L. Crane reports an increase in enrollment in all schools in the district, the total enrollment to date being 1,695.

The first sports event of the grammar school season were played on Friday. Crocker played the first competitive game of hand-ball with Woodrow Wilson. Alvin Wright, of Crocker, won the singles from Ernest Peggola, 11 to 10, and Charles McCarthy and Charles Gregori, of Crocker, won the doubles, 21 to 19, from Rodney Paugh and Richard Rudolph.

Woodrow Wilson and Jefferson played their first speed-ball game. Woodrow Wilson won, 7 to 4. Most of the Jefferson boys are new to the game, but made a splendid showing against the more experienced Woodrow Wilson boys.

The spirit of the Olympic games is being reflected in the daily physical education period at the Vista Grande school. The pupils are competing in relay races with as much enthusiasm and anxiety over the results as though world records were involved. It is most interesting to note how the same spirit of good soprtsmanship and fair play, as shown in the Olympic, is also demonstrated in these miinature examples of competitive effort.

The teachers and pupils of the Jefferson school are enthusiastic over the numerous improvements and advantages provided for them this year. They appreciate the thought and care attending these facilities. Their every need has been anticipated, and they wish to thank all those who were instrumental in effecting them. The back yard has been paved. The children enjoy this to the utmost. Their play periods have for them a new zest and pleasure. Volley-ball and speed-ball for the upper grades, and less arduous games for the lower divisions are now in full progress.

The library is being reorganized and sectionalized. Individual recreational and vocational reading is being encouraged by the purchase of more library books.

A very large number of people are beginning to agree with John Dewey that "the school is not a preparation for life—it is life." In many respects the after-school life should be a continuation of the things begun in school.

It is this view that makes books and their uses of real significance. There is no better means of disseminating ideals among the masses of the people than the right use of the best literature in the schools and in the home.

Inside and out, Jefferson school has been beautified and improved, and all those connected with it are happy and will strive to show their appreciation by their spirit and co-operation.

Boys Are Blamed for Mysterious Auto Wreck

Mystery surrounding the finding of an expensive sedan, totally wrecked, at the bottom of Green canyon, near Half Moon Bay, has been partially celared up. Twenty-four hours after the car was found, John B. Jorkman, San Carlos contractor, owner of the machine, was located and told officers that his car was stolen while he and his wife were on a trip to Sonora.

Constable S. A. Landini and Deputy Sheriff John Simpson, who have been conducting an investigation, have apprehended a group of six San Francisco youths, all of whom are said to be 16 years of age, who are said to have stripped the machine in the canyon. Traced through the license number of the car, the six boys were located by Constable Landini in San Francisco and practically all of the accessories taken from the sedan were recovered.

WOODROW WILSON P. T. A. PLANS MEMBERSHIP DRIVE

The members of Woodrow Wilson-Vista Grande Parent-Teachers' Association are holding a membership drive during September, October and November, Mrs. Brown, membership chairman, being in charge of the drive. Mothers who have children in the schools are urged to visit and join the organization. The Parent-Teachers' Association is world wide, and is interested wholly in the welfare of children. This worth while organization deserves the support of all the parents. The dues are small and within the reach of all.

Driver Crashes Into Truck

Last Saturday evening at 6:45 o'clock, George King, of 394 Laidley street, San Francisco, while driving a Studebaker sedan at a high rate of speed, on Peoria street, failed to stop at the arterial sign at Templeton avenue and Peoria street, and crashed into a Klieber truck, driven by A. McIntyre, of 1912 Divisadero street, in the employ of Coles Transfer Co. King was the only one hurt, being slightly injured.

HOSPITAL AND HIGHWAYS LOSE TWO-FISTED FRIEND IN HICKEY

The following editorial appeared recently in the Redwood City Tribune, and it expresses our sentiments on the recent election:

"When a big, two-fisted fellow like Tom Hickey of South San Francisco is turned out as a Supervisor, after nearly sixteen years of service to his district, it is an event too important to be passed over without comment. Supervisor Hickey took his work as seriously as any public servant ever sent to the courthouse, and while he made his mistakes like every other human, he also has to his credit some causes for which he has been an outstanding champion.

"Supervisor Hickey persistently has fought to make the Community Hospital an outstanding credit to the county. During the tax reduction hearings, he refused to listen to any plan that would curtail the best of medical service to the poor of the county, knowing it was to this institution they had to turn. Mr. Hickey, too, has fought for county highways such as the Bayshore and the Junipero Serra, and he has seen to it that San Francisco and the state paid big shares of the cost of these projects. As a result, San Mateo county is seeing the completion of two highway projects on which it has so far paid out but little cash.

"We do not know what happened up in First township that caused them to turn out Mr. Hickey. We do not know what sort of a Supervisor Mr. Witt, his successor, will make. But we do know that the newcomer cannot be more sincere in his desire to serve the county as a whole than Tom Hickey has been these sixteen years."

RACE FANS TO SEE MANY FAVORITES

The formidable Polydorus, the "Hindoo" at the Spring meeting at Tanforan, is coming to San Pruno with other horses Harry Unna is shipping to the west. This sterling son of Friar Rock was an immense favorite in the racing at the Peninsula plant in the spring and it is likely his popularity has not been dimmed by his short absence.

Fans also remember the clever three-year-old Yonkel, which battled on several occasions in thrilling fashion with Jack Atkin's Joe Flores and Bill Hartman's Bahamas. The stakes performer Sydney Grant, a wonderful stretch runner, Kibitzer, a recent winner on the "Big Time," and other high class performers are in the Unna establishment.

Judge Joseph A. Murphy has wired that G. L. Bancroft, of moving picture fame, is sending three horses on the same train as Unna. The clever Stock Market, which is owned by Bancroft, has been running with such good ones as the Northway's stable's Sun Dot and Ed McCuan's Sobieha.

General Manager Ralph C. MacArthur has received from the printer the condition books for the first nine days of racing at the meeting to open at Tanforan on Thursday, September 22. A "condition" book is all important to the owners of race horses, as by perusing it they determine in just what events they will enter their stakes and overnight runners.

The first feature of the meeting will be on Saturday, September 24, when the A. B. Spreckels Handicap at six furlongs will be renewed. This fixture, named for the late breeder of thoroughbreds, will have the substantial sum of $2,000 added. It is for the two-year-olds and upward, and indications are quite a number of the younger gallopers will compete against their older brothers and sisters.

The precedent established at Tanforan of having two stakes in one afternoon will be followed the day the Spreckels is run. The California Handicap with $1,200 added and also for two-year-olds and up, will be run for the second time.

On the first Tuesday of the session there will be the first of a series of $1,000 handicaps. The handicap to be run on Tuesday is for three-year-olds and up, and is at the popular distance of six furlongs.

On Wednesday the feature will be a handicap at a mile and seventy yards, for three-year-olds and upward.

On Saturday, October 1, will be decided the first of the stakes exclusively for thoroughbreds foaled in California. The "native" feature is called the San Bruno, and is a mile and three-sixteenths, a distance that will be a true test of the stamina of the participants.

On the same day the San Mateo, with $2,000 added, open to entries for horses of any state, will be renewed at six furlongs. The San Bruno has $1,200 added.

Overnight purses will be in keeping with the traditions of Tanforan, a course held in high regard by horsemen on account of uniformly liberal treatment.

AMERICAN LEGION HAS NEW OFFICERS

Last Wednesday evening, September 7, Daly City Post No. 410, American Legion, held installation of the newly elected officers, in the Community Center Hall in Colma, in the presence of members of the Auxiliary and many invited guests.

District Commander Knowles, of Marina Post No. 384, was present, but Vice-Commander Crane of the local Post was the installing officer.

Following the program and the serving of refreshments, dancing and entertainment were enjoyed. Comrade Jones played several accordion solos, and Comrade McGregor delighted the crowd with songs.

There will be no meeting tonight, Friday, September 9, of members of Daly City Post No. 410, on account of the holiday, Admission day.

Daly City Post will participate in the parade and dedication of the war memorial to be held in San Francisco today. A two-hour parade, honoring both Admission day and the War memorial dedication, will march up Market street this Friday morning, Thomas M. Foley, executive chairman of the ceremonies, announces.

The San Francisco American Legion band of seventy-five pieces will head the cordon, followed by Veterans of the Civil and Spanish-American wars, Veterans of Foreign Wars, and Native Sons and Daughters, here for their state conventions. Interspersed will be numerous floats depicting early California life.

The California Legionnaire says: The American Legion is the greatest organization of veterans that has ever existed in the entire history of the world. It has 10,400 Posts, many in distant parts of the world, with a membership that reached 1,053,909 for the calendar year 1931. Dedicated to the highest patriotic ideals, the American Legion is pledged to continue in time of peace the same high type of service that its members rendered to the nation in time of war.

SAN MATEO COUNTY'S GOOD SAFETY RECORD

There were only forty-eight accidents to the employees of San Mateo county reported to the State Compensation Insurance Fund during the 1930 policy year. None of the injuries were of a serious nature. As a consequence a dividend check for $1,939 has been received by the county, amounting to a reduction of 26 per cent of the $7,460 premium paid on the county's 1930 State Fund policy.

V. F. W. BAND REHEARSING

The Veteran of Foriegn Wars band of San Mateo county has rehearsals every Wednesday evening at 7:30 o'clock, at the Junior High School in San Mateo. All Veterans of Foreign Wars members are welcome, and those desiring to play in the band should be there and get going. Beginners may start now. This band is progressing nicely. Come and hear them. You will be surprised to see the progress they have made.

VETERAN FIREMEN ARE ENTERTAINED

The members of the Daly City Veteran Firemen's Association held their monthly meeting on September 2 at their hall. After the regular business meeting the board of directors were requested to pepare for the annual whist, which was suggested to be held on Friday, November 18, at the Daly City Auditorium. Be sure and hold that date open, for there will be a good whist party as usual, and everyone is invited.

Attention was called by Comrade A. Vireno to the charter. The members were agreeably surprised to see it mounted with photos of all the charter members.

Comrade H. Anderson, of the San Francisco Veteran Firemen's Association was present and entertained the members with a song, "The Songs My Mother Used to Sing to Me." He then told a few jokes, which were enjoyed by all, and invited the Veterans to visit the San Francisco Veteran Firemen's Association on Tuesday in San Francisco.

Comrade Natusch, who now lives in Burlingame, was present, after five months of illness, and was given a warm welcome by the members.

The sick committee reported several members ill. Comrad Heselin is back home again, greatly improved.

Following adjournment a delicious buffet luncheon was served, which was greatly enjoyed by the Veterans.

Don't forget the uniform rank. Get in and see what's doing. Keep up with the Association, and try and be present at all the meetings.

MERCHANTS' PICNIC A GREAT SUCCESS

The great crowd that journey to Oak Cove Park last Sunday for the annual picnic of the Daly City Merchants was not disappointed. Notwithstanding the fact that it was the day before another holiday, Labor day, the crowd was large and unusally happy.

Nothing could happen to mar the pleasure of the crowd. They went there for a good time, and they had it. They met on the level, and everybody was friend to everybody else, and took pains to show it. All enjoyed the refreshments, the music, and the dancing, and at 6 o'clock in the evening there was still a large crowd at the grounds, as if reluctant to see the "end of a perfect day."

No man can succeed in his business or profession alone, and no man or woman can be happy alone. They need the friendship and co-operation of those they come in contact with, both in a business and in a social way. The merchant needs the patron, and the patron needs the reliable merchant. Co-operation makes for good times, and money spent at home will help build up better conditions in the home town. If Daly City merchants were better patronized there would undoubtedly be more money in circulation and better conditions in Daly City. There is really no reason for going elsewhere to buy. We have as good markets as are to be found in San Francisco, and the prices are commensurate with the quality of the commodities.

Let us cultivate a spirit of co-operation and helpfulness to one another, and thereby make the burden of these trying times as light as possible.

The Daly City Merchants' Association has for its object helpfulness not only for the merchants, but for the people generally and in every way possible. Much time and energy is spent in trying to find ways and means for the betterment of conditions in our community. The only way to succeed is for all the merchants, business and professional men to attend the meetings on the first Wednesday of each month, and take an active interest in the welfare of the community.

Nothing of importance came before the meeting last Wednasdey, and the time was consumed in figuring up and paying the bills incurred on account of the picnic.

The next regular meeting of the Association will be held on Wednesday evening, October 5, at which time the nomination of a staff of officers to serve for the ensuing year will take place. All are cordially invited to attend.

W. H. CLAY,
Recording Secretary.

PRESENT CHARTER TO WOMAN'S AUXILIARY

Last Wednesday evening the charter of the newly organized Woman's Auxiliary to San Mateo County Typographical Union No. 624 was presented to the members of the Auxiliary by a committee from the union, the presentation ceremonies being held in the home of Mrs. Effie Davis, in Redwood City. A total of twenty-three names appear on the charter. Following the presentation, tempting refreshments were served.

TRAGEDY STRIKES JEFFERSON HIGH

(By the Journalism Class.)

Tragedy has again visited the ranks of the Jefferson Union high school student body. On last Monday Sallie Johnson and Travers Trimble, two of Jefferson's most popular students, were drowned in the San Joaquin river near Tracy, where they were spending the week end holiday in company with their parents. Newspaper over her depth, and Travers attempted reports say that Sallie got into water to resuce her. The entire student body and faculty extend their deepest sympathy to the breaved parents.

Mr. Ferguson and his daughter Mrs. Helgeson and Patricia spent last week end in Yosemite Valley. On Tuesday morning Mr. Ferguson conducted Miss Torello's first period class and described the wild life of the Valley in a very interesting way. He said that the bears and deer are so tame that they will eat out of a person's hand. The result of having the Yosemite National Park a protected game preserve. When visitors go into the park they are asked if they have with them a dog or cat or firearms. Dogs and cats are not allowed in the park, and firearms can not be taken in unless they are sealed. One morning Mr. Ferguson saw two large bucks walking around among the guests at Camp Curry, and as little concerned as any domestic pets would have been. The bears are a little shy, he said. But they will come forward and eat sugar, for instance, out of a person's hand. This is not altogether safe, for the bears are liable to become greedy and strike with their paws the hand of the person feeding them. A typical Will Rogers comment is posted on one of the bulletin boards: "Guests are advised not to feed the bears out of their hands, but the Government maintains a hospital for those who do."

A chain is now stretched across the driveway between the main building and the tennis courts. Students driving cars to school will enter the parking area by Miriam street hereafter and not by the front entrance. This change has been made necessary as a safety measure. Student cars driven in front of the school during the passing of classes and at dismissal have caused several near accidents.

For the convenience of those living in the district south of the high school the Board of Trustees has had a gate installed in the fence and opening on to Miriam street. This will be a great convenience, particularly to those living in Jefferson Park, and will reduce the traffic on Mission street.

During the school session Wednesday afternoon a car parked near the auto shop building was being cranked, and suddenly started and ran over two boys, David Welch and Stanley

(Continued on Page 2.)

BOARD ACCEPTS COUNTY CHARTER

The San Mateo county board of supervisors last Monday accepted the proposed county charter, presented by J. W. Coleberd, attorney for the board of freeholders, and a resolution for its publication was adopted.

A petition of fifty-one taxpayers of the Colma lighting district for withdrawal because of the fact that their territory had been annexed by Daly City, was granted on motion of Supervisor Thomas L. Hickey.

Five bids were opened for surfacing the La Honda road and seven bids for surfacing the Haskins Hill road. The bids were referred to County Surveyor James S. James for recommendation.

Selection of officials for the next election from among heads of families who are unemployed was asked by the San Mateo Building Trades Council in a letter addressed to the supervisors. Supervisor Rosalie Brown, of San Mateo, said that she would be glad to comply with the request as far as possible.

Five applicants asked to be placed on the list of persons eligible for positions as state traffic officers. Among these are Thomas Harrison, San Mateo; Harry B. Price, Burlingame; Vincent P. Kentzel, Burlingame, and Oscar Werner, Millbrae Highlands.

A petition from a group of Brisbane residents for the formation of a new school district was denied on the recommendation of Pansy Jewett Abbott, county superintendent of schools. Miss Abbott told the supervisors that they had no right legally to institute proceedings, as the petitioners failed to comply with requirements of the school laws. The situation is "unfortunate," Miss Abbott said, and residents in that section had been advised to become part of the South San Francisco school district.

HERE AND THERE

F. Kramer, of Berlin, Germany, who lost his pocketbook eight years ago, recently received the purse with a note thanking him for the use of the money and sending 20 marks more than the wallet contained when he lost it.

"Brad," a Boston terrier recently was successfully operated on at Brookline, Mass., for the removal of seven stones he had swallowed from his owner's rock garden.

John Taylor, custodian of a church in Logansport, Ind., used a mop so hard on the church door that the mop caught fire.

A trust fund of more than $86,000 for the care of dogs and cats was left by the late Henry C. Babcock, retired oil broker of St. Louis.

For electricity he says he stole a decade ago, E. L. Lathan has just sent 50 cents to a power company at Benton, Ill.

When someone telephoned the humane society at Utica, N. Y., and told Henry Goorley that he was fighting a wildcat and asked for help, Goorley rushed to the man's house and found that the "wildcat" was the man's wife.

Hunger and a craving for tobacco led Charles Lince of Alden, Mich., charged with shooting and wounding his wife in a jealous quarrel, to surrender to police after he had evaded them sucessfully for a week.

William Southland of Chicago was taken to jail when he couldn't satisfactorily explain to policemen why he was wearing three suits of clothes and a winter overcoat with the thermometer reading 98 degrees.

Natives of Digby Neck, on the coast of Nova Scotia, have found a bottle containing a yellowed SOS message which is 34 years old.

Trapped by fire in her room on the second floor of an apartment house in New York City, Mrs. Jennie Schiller pulled in her clothesline, tied it to a table leg, and slid out the window to safety.

For three days while crossing the Andes Mountains in South America, the only food Haig Correls, an Englishman, his wife and three children could obtain was four wax candles.

Although he received a sentence of from 10 to 20 years for the theft of an automobile, Joseph Paris of New Orleans shouted: "What a break, I'll be away from women for twenty years."

The top layer of a cake served at the twenty-fifth wedding anniversary of Mr. and Mrs. L. D. Sanderson of Cooksville, Canada, was a layer of the original wedding cake.

Dr. J. L. Wheaton of Pawtucket, R. I., has presented a 115-year-old rolling pin that belonged to his mother to the collection of relics at historic Daggett house.

Mrs. Mary Lorgan, of St. Louis, wrote to a pastor a request that his church equip her with a set of false teeth.

Florida has the largest area of swamps and wet lands of any of the states—9,800,000 acres.

When thieves robbed a Winthrop street gasoline filling station in Taunton, Mass., recently they included a watch-dog in their loot.

Beginning her one hundred and seventeenth year, Mrs. Dora Meyers, of Jersey City, N. J., ate a chicken dinner with her son, aged 89.

Because her husband paid more attention to his pet chicken than he did to her, Mrs. Nicholas Gimpel, of Chicago, sued for a divorce.

City jailers in Pittsfield, Illinois, have more regard for burglars since thieves broke into the empty jail and stole all the bedding from the cells.

Jennie, a little bay mare belonging to A. P. Jordan, of Fort Collins, Colo., has adopted a month-old fawn to mother.

When George H. Swift, of Salem, Ore., went to the police station to report a burglary of his home, he found the stolen goods on the sergeant's desk.

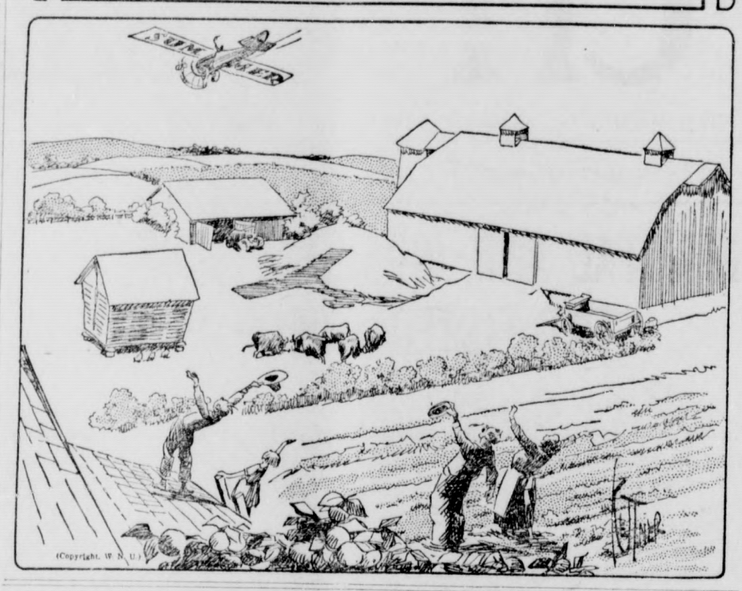
At 92, William H. Hewins, of Falmouth, Mass., is spry enough to handle the duties of town clerk as well as his own insurance business, satisfactorily.

An armed bandit and a companion held up Leo Groves, an undertaker of Flint, Mich., in front of his parlors and drove away with his hearse.

Miss Esther Flynn, of St. Louis, appealed to the police to protect her from Frank Morriarity, who whipped her father and her brothers and then theatened to spank her unless she married him.

Mrs. Gertrude Franz, of Chicago, was refused a divorce, though she testified that she and her husband quarreled every day in the year.

Good-bye



TRAGEDY STRIKES JEFFERSON HIGH

(Continued from Page 1.)

Oliver. David suffered a scalp wound, but Stanley escaped without injury. The boys had been playing basketball when the accident occurred. The person who cranked the car was one of the men working on the pump which furnishes the school with water. Coach Biaggini took David to the hospital and had him given prompt attention.

Last Friday the Jefferson varsity met its second defeat of the season at the hands of Sacred Heart High, by a score of 7 to 0. The game was all Jefferson's for two quarters. The third quarter opened with Sacred Heart penetrating deep into Indian territory, where they blocked a Jefferson punt. A series of line bucks and a pass put the ball over the goal line for the only score of the day.

The stars of the day were Koorsoones and Smith of Sacred Heart, while Wilkinson, Pringle and Emery were outstanding for Jefferson. Fred Wilkinson, star end of Jefferson, had the ill forune to break his leg in the last play of the game. As Fred is one of the mainstays of the Indian eleven, his services will be greatly missed.

Howard Capps was chosen as the new student judge at an executive meeting held last Wednesday, September 9. Although the constitution states that the student judge must be a senior, the ineligibility of the senior boys made it necessary to appoint a member of the junior class to fill this position.

Three students of Jefferson, Clytie Clousky, Cornelia Howe, and Marie Kahle, were eligible for the honor society of the school this term. However, only Cornelia Howe and Marie Kahle were present at the initiation. The initiation was held at the home of Miss Dorothy Staib, California Scholarship Association advisor for Jefferson. As a part of the entertainment furnished, Cornelia Howe told a number of weird ghost stories. For the remainder of the evening the members joined in a game of bridge.

An editor was dining out. "Would you have some more pudding?' his hostess asked.

"No, thank you," replied the editor, absent-mindedly. "Owing to tremendous pressure of space I am reluctantly compelled to decline."—Tit-Bits.

Colonel Peterson Wins in Assemblyman Race

Colonel Frederick Peterson, of Burlingame, will be San Mateo county's next assemblyman, it appears as a result of the count of the absentee ballots by the San Mateo county board of supervisors last Monday, indicating his nomination by the Democratic voters over George Whitehead, San Mateo attorney. Since Colonel Peterson won the Republican nomination at the primary, he is virtually assured of election.

The absentee voters gave Colonel Peterson thirteen additional votes and Whitehead twelve. Wayne Millington picked up six Democratic votes, and Harrison W. Call, five.

Semi-official figures for the Democratic assembly race are: Peterson, 2,090; Whitehead, 2,051; Call, 1,972; Millington, 1,457. This gives Peterson a lead of thirty-nine over Whitehead.

HUGE LOSSES SHOW NEED OF FIRE-PREVENTION LAWS

The American people are described as the most wasteful, careless and ignorant in the world when it comes to fires and how to prevent them.

The Industrial News Review, published in Portland, Oregon, believes "fire loss would drop to a new low overnight" if all states passed laws similar to those of France, which make a property owner responsible for damage to other property by fire caused by his carelessness.

"The first step," in the opinion of the Review, "would be to check up on chimneys and flues. Then we would have to lay plans to prevent carelessness with matches, cigars, waste, rags, inflammable liquids, and similar menaces. If we were putting up a new building, we would see to it that the construction was of the highest standard.

"We would look into fire prevention seriously—and once we learn something about it we would retain the information. It wouldn't go in one ear and out the other, as, in many instances, it does now."

Bloodhounds ae being successfully used by the United States Forest Service to track down incendiaries in national forests of Eastern states.

"No, I didn't take the job. There was no future to it. The owner's daughter was already married."—Juggler.

Since 1500 A. D. Iceland has exceeded all other regions in the output of lava from its volcanoes.

SURVEYS INDICATE SPURT IN INDUSTRY AND EMPLOYMENT

A definite upturn in business and employment was reported the other day by the Federal Department of Labor. The announcement reported "strong indications that this upturn in employment is not of a temporary character." The improvement was described as "the first really noticeable expansion in industrial activity that has occurred so far this year."

Government surveys, the report said, show that conditions in the boot and shoe industry are generally improved, with a number of factories recalling employees and operating on a full-time basis. Textile mills have reemployed thousands of workers. Anthracite coal mines have put thousands back to work, and widespread highway construction has provided employment for large numbers.

The world's largest pie, containing 55 pounds of cherries, 3 barrels of flour, 150 pounds of lard and 100 pounds of sugar was baked in a 250 pound pie tin, 16 feet in diameter, in Traverse City, Michigan.

CANNERY 'HIGHLY PLEASED' BY CHANGE TO NATURAL GAS

One year's experience with natural gas in the Sutter Packing Company's cannery at Palo Alto prompted that firm to write this comment to the Pacific Gas and Electric Company:

"So far as direct costs are concerned, we paid for the installation twice over during the first year, and will be pleased to demonstrate these figures to any of our friends. We are positive that the depreciation of our boiler equipment is reduced perhaps 50 per cent by the use of gas. Another point very clearly demonstrated is that we are able now to realize the full maximum capacity of our boilers, which certainly was not the case when we used other fuel.

"We are not in the habit of generally passing out letters such as this, but in this particular instance we feel so highly pleased and gratified that it is a pleasure to address this letter to you."

Pehraps we have "whispering campaigns" because there are so many speakeasies.

CITY OF DALY CITY

(Estimated Population 8,901.)

Annual Report of Financial Transactions for Fiscal Year 1931-1932, Ending June 30, 1932.

Cash on Hand at the Beginning of the Year:

General Fund	$ 21,539.38

CALIFORNIA NEWS REVIEW

Road Urged as State Highway

Appealing directly to the State highway commission the Los Angeles city council and various civic clubs ask that the proposed east road through Cahuenga Pass be included in the State highway system, thereby making the early construction of the artery possible.

Traffic Officers Endangered

According to figures made public recently by the California Highway Patrol, death and injury ride the highways for traffic officers as well as for civilians. Since January, 1931, out of a total personnel of 447, five officers have been killed and 114 injured in traffic accidents.

Yosemite Park Enlarged

Following the signing of a proclamation by President Hoover recently, Park Superintendent C. G. Thompson announces Forest Service land totaling 5,125 acres and 3,042.44 acres of private land have been added to Yosemite National Park. The land is known as the Wawona Basin.

Too Much Lettuce

A preliminary survey of the El Centro district by B. A. Harrigan, agricultural commissioner of Imperial county shows a posibility of 12,000 acres being planted to lettuce next year. The commissioner believes this is far more than the market will absorb, and issues a warning against overproduction.

Wheat Shipped to Mexico

Eighty cars of good wheat have recently been shipped from Mexicali in bond through the United States to El Paso, Texas, and from there to flour mills in Mexico City. The shipments have given encouragement to farmers of the Lower California side of Imperial Valley who have been hard hit by the collapse of cotton.

Big Tank Job at Monrovia

The Southern California Gas Company have secured a building permit in the sum of $62,000 for erection of four 250,000 cubic feet gas storage tanks in Monrovia. The new tanks will increase the storage capacity of the plant from 600,000 to 1,600,000 cubic feet, and take care of an estimated population increase of 150 per cent.

Pomona Plant Busy

Construction is going forward on a new warehouse 60 by 280 feet and a machine shop 52 by 60 feet at the California Fruit Wraping Mills, in Pomona, in an expansion program. Recently a new 800,000-gallon storage reservoir was erected at the plant. The company is reported as operating at full capacity at the present time.

Ventura Apricots Excellent

According to recent estimates something like 2900 tons of dried apricots comprises the 1932 crop of this product from Ventura county orchards. The quality of the fruit this year was excellent, although market conditions for the fruit are not as favorable as they are expected to be in the fall, and many growers are holding for a better price.

Tulare Wants Own Electric System

With a petition filed by the city of Tulare, which wishes to purchase the Southern California Edison Company's electric system in the city and operate it municipally, Engineer McKaye, engineer for the State railroad commission is making an evaluation survey of the company's distribution system there.

School Leaders to Meet

For a discussion of school problems city and county superintendents and district supervisors have been called for their annual convention on October 10, 11 and 12 in San Francisco, by Vierling Kersey, State superintendent of public instructions. More than 350 of the State's public school leaders will attend.

Printing on Trial in San Mateo

With the filing in San Mateo county of a petition for a writ of mandamus to compel County Clerk E. B. Hinman to print and not photograph the index of registered voters A. L. Hill, secretary of San Mateo Typographical Union asks the San Mateo Superior Court for a decision. The law specifically calls for printing and not photography, according to Hill.

Narcotic Hospital Considered

Proposing for legislative consideration the establishment of a new narcotic hospital for women addicts Governor James Rolph Jr., has requested Dr. J. M. Toner, state director of institutions, to investigate the need of such a hospital. Expansion of the State narcotic hospital at Spadra, Los Angeles county, also was ordered by the Governor.

Lamb Has Five Legs

While a bird in the hand is better than two in the bush, five legs of lamb are all wrong. Especially if the fifth leg is attached to the top of the lamb's head as is the one on an animal owned by W. Witherly of Patterson.

Tournamnt of Roses January 2

With New Year's Day falling on Sunday this year's Pasadena tournament of roses directors have postponed the customary date of January first for their parade until Monday, January 2nd.

Highways Safe for Youngsters

..."Children should be seen and not hurt" is the suggestion made for a new safety slogan for motorists in an effort to make the highways safe for youngsters, by an enthusiastic member of the Automobile Club of Southern California.

Winery Incorporated

For the purpose of buying and selling grapes and grape products the Tulare winery, organized with an authorized maximum capacity of $75,000, has filed articles of incorporation with the secretary of state. The headquarters are given as Tulare, with the following directors named: Frank Giannini, Fred Lagomarsing and F. J. Heid, Jr., all of Tulare.

Tulare Fruit Payroll High

As a result of the peach run at the Tulare Packing Company's cannery more than $100,000 in pay roll for fruit and labor is being distributed in the channels of trade about the district, according to W. F. Herman, manager. Starting late in July, the Tulare cannery is expected to operate on peaches until the latter part of September.

Gas Taxes Gain

According to announcement by Richard E. Collins, chairman of the State Board of Equalization, State gasoline taxes assessed to California oil companies for sales during June and July, 1932, show a gain of 4.5 per cent over taxes assessed for the corresponding period in 1931, despite the burden of the new federal gasoline tax. The tax totaled $7,611,423, showing a gain of $309,278 over last year.

Five-Day Week Gaining

Extending the 5-day week through the work spreading plan the Standard Oil Company of California announced recently the extension of its short-week policy by including 125 employes of its marine service, increasing to more than 3500 the number of employes who have been kept on the payroll, through the system. Office workers and other branches of the company previously have been placed on shortened schedules, thus avoiding lay-offs.

Barbers Towels Costly

In reviewing the records for the 1931-32 fiscal year C. E. Rynearson, secretary of the State Board of Barber Examiners finds the practice has been costly to the men of the trade who have used second-hand towels. Ninety-six barbers were arrested during the year with 93 convicted, three dismissed, and fifty shops were closed because they were found unsanitary. One barber was fined $75 for using a towel a second time instead of letting the laundry wash it for ½ a cent.

State Banks Safe

Ed Rainey, State superintendent of banks, in replying to the Federal Home Loan Bank Board recently, declared that as far as California's State banks are concerned, the moratorium on home foreclosures, as proposed by the board, has been in effect here for some time. Even if the proposal were new to California, Rainey pointed out, its effect would be narrow inasmuch as there are comparatively few State banks now being liquidated.

Largest Power Contract

A contract for approximately $2,313,000 worth of power to be delivered over a period of five and one-half years, has been approved by the state railroad commission, making one of the largest power contracts ever entered into in California. The contract is between the Metropolitan Water District of Southern California and the following: Southern California Edison, Los Angeles Gas and Electric and Southern Sierras. The power is to be used for construction of the aqueduct between Los Angeles and the Colorado river.

"Betting" on the Ballot

An injunction petition brought before Judge Glenn of Sacramento by L. C. Green, Marin county taxpayer, asking that Secretary of State Frank C. Jordan be prevented from certifying the initiative amendment to legalize race track gambling in California under the "certificate" system,, was denied. Despite an attack on the measure's constitutionality, that the certificate system violated a state constitutional provision prohibiting lotteries, the measure will be permitted to go on the November general election ballot, it was ruled by Superior Judge Malcolm Glenn.

Child Welfare

Leland W. Cutler, president of the San Francisco Chamber of Commerce, has been appointed by Governor Rolph as chairman of an advisory committee to the California White House Conference on Child Health and Protection. Composed of State officials and leaders in state-wide organizations actively interested in the promotion of child welfare, the committee will assist directors of the State Departments of Public Health, Social Welfare and Education—Dr. Giles S. Porter, Mrs. Rheba C. Splivalo and Vierling Kersey—who will supervise the programs.

Montebello Economizes

"In keeping with their economy program" the Montebello councilmen have repealed the city ordinance creating the office of city manager which was initiated about three years ago.

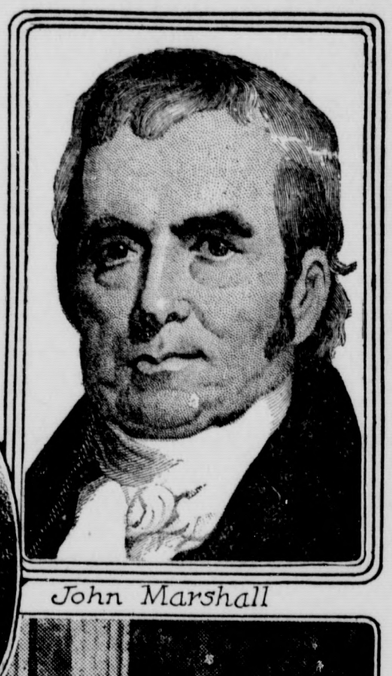
Sugar Beet Laboratory

Reported to be one of the most modern and one of the best equipped of its kind in the United States a sugar beet testing laboratory has been established at Davis in connection with the California College of Agriculture.

The Trial of Aaron Burr

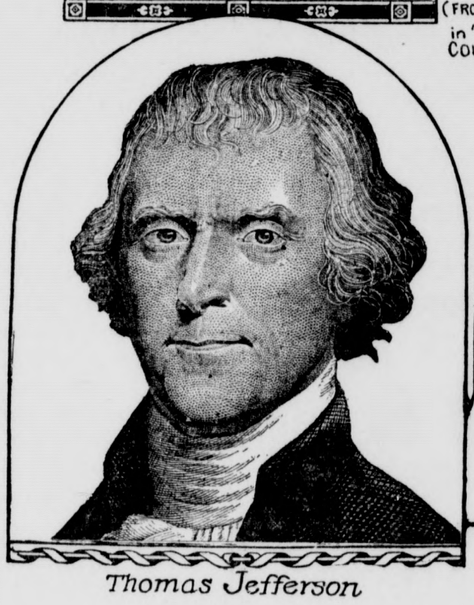
Aaron Burr

Theodosia Burr



John Marshall

Courtroom Scene at Burr's Trial
(FROM THE PAINTING by C.W. JEFFERYS in "THE PAGEANT of AMERICA", COURTESY YALE UNIVERSITY PRESS)



Thomas Jefferson

John Randolph

By ELMO SCOTT WATSON

ONE HUNDRED AND TWENTY-five years ago the eyes of the whole nation were turned toward Richmond, Va., for there was taking place one of the most dramatic events in American history—what has been called "the greatest criminal trial in American history and one of the notable trials in the annals of the law." No less a person than Aaron Burr, but lately Vice President of the United States, was on trial for his life and the charge against him was that of committing a crime which was a threat to the safety of not just one person or a group of persons but to the safety of the whole nation, the crime of high treason.

Although Burr was acquitted by what was substantially a Scotch verdict of "not proven, my lord," and historians are still doubtful as to whether or not the famous "Burr Conspiracy" was actually a treasonable scheme, the name of Aaron Burr has come down in popular belief among our "galaxy of scoundrels" second only to Benedict Arnold. Whether or not he has been assigned such a place justly or unjustly is a matter over which again historians disagree.

In the Presidential election of 1800 Burr and Thomas Jefferson, the Democratic-Republican candidates, each received 73 electoral votes, a tie which threw the election into the house of representatives, which was strongly Federalist. After balloting for a week, ten votes were cast for Jefferson and four for Burr, and under the Constitution as it stood then this made Jefferson President and Burr, Vice President. Because of political jobbery with the Federalists, Burr lost whatever regard the leaders among the new party held for him. Then he became involved in a bitter struggle for supremacy in New York politics and because of the antagonism of Jefferson all the patronage was thrown to Burr's rivals, the Clintons and the Livingstons. Accordingly he accepted Federalist support in the gubernatorial race of 1804, an alliance which was fought bitterly by Alexander Hamilton. The result was the defeat of Burr, who held Hamilton chiefly responsible for his humiliation. Then followed the famous Burr-Hamilton duel in which Burr's pistols ended the great career of Washington's secretary of the treasury and made Burr a political and social pariah.

Discredited in the East where he had been a leader, Burr turned to the West to recoup his fortunes, hoping to capitalize on the unrest among the Westerners where talk of disunion was rife. Crossing the Alleghenies he arrived at Blennerhassett's island in the Ohio river where lived Harman Blennerhassett, a wealthy Irishman, who had settled there in 1798. To Blennerhassett Burr proposed a wild scheme of raising an armed force in the Old Southwest, driving the Spaniards out of Mexico and establishing a great southern confederacy composed of these conquered Mexican possessions and the American territory west of the Alleghenies where the sentiment for disunion seemed so strong.

Blennerhassett was enough impressed by Burr's scheme to mortgage his vast possessions to furnish the necessary money. They also hoped to gain the aid of Great Britain in carrying out their scheme and, further to insure the success of the plan, Burr won the support of General Wilkinson, then governor of Louisiana territory, commander of the United States army and "as two-faced a villain as ever served the United States government."

Throughout 1805 and 1806 Burr developed his plot which became well known throughout the West. The federal authorities, however, seem to have been strangely blind to what was taking place until at last Wilkinson betrayed the scheme to Jefferson who on November 27, 1806, issued a Presidential proclamation calling for the arrest of all those involved. Wilkinson and the others, to save their own skins, deserted Burr and, in the modern parlance, he was made the goat of the whole affair. Attempting to flee, Burr was arrested in Alabama and brought back to Virginia for trial on the charge of treason.

His case was tried in the United States circuit court sitting at Richmond and never, perhaps, in American history has there been gathered together in a courtroom such a galaxy of notables as assembled in that little room in Richmond. John Marshall, chief justice of the Supreme court of the United States presided over the trial. Luther Martin and Edmund Randolph were counsel for the accused and William Wirt was counsel for the government. The foreman of the grand jury which brought the indictment against Burr was the waspish but brilliant John Randolph of Roanoke. And not the least of the great figures in this case was Burr's charming daughter, Theodosia, of tragic fame later.

Although Aaron Burr was upon trial on the most serious charge which can be placed against the citizen of a country, in reality he was little more than a pawn in what was at the time regarded as a test of strength between the Republican President Jefferson and the Federalist Chief Justice Marshall. The trial lasted from March 27 to September 7, 1807, and the full story of the legal maneuvers executed by the two clashing forces would require a book for the telling.

Under the Constitution, treason against the United States consists "only in levying war against them, or in adhering to their enemies, giving them aid and comfort," and no person may be convicted of it "unless on the testimony of two witnesses to the same overt act, or on confession in open court." The crux of the whole case against Burr was whether or not on a certain date (December 10, 1806) Burr had actually "levied war against the United States" by assembling an armed force on Blennerhassett's island and on the day following had set in motion this same armed force in an expedition against the City of New Orleans.

The prosecution produced a series of witnesses, mainly servants of Blennerhassett, to prove this point. Then it announced its intention of introducing evidence to show Burr's connection with the assemblage on the island, whereupon the defense sprang a surprise which turned the tide in Burr's favor. Developing the fact that on the night of December 10 Burr had not been present at the island, but had been 200 miles away in Kentucky, they contended that under the Constitution the assemblage on Blennerhassett's island could not be regarded as his act, even granting that he had advised it, for, said they, advising war is one thing but levying it is quite another. If this interpretation was correct, then no overt act of levying war, either within the jurisdiction of the court or stated in the indictment, had been or could be shown against Burr.

Next Chief Justice Marshall handed down an opinion accepting virtually the contention of Burr's attrneys and when the prosecution was unable to produce two witnesses who had actually seen Burr procure the assemblage on the island, it allowed the case to go to the jury.

Shortly thereafter the following verdict was returned: "We of the jury say that Aaron Burr is not proved to be guilty under this indictment by any evidence submitted to us. We therefore find him not guilty." At the order of the chief justice this Scotch verdict was entered on the records of the court as a simple "not guilty."

Acquitted, Burr became an exile and an outcast. The man who came within one vote of being President of the United States wandered about Europe for four years, borrowing small amounts, attempting dubious promotions, urging the French to seize Louisiana in 1810, and finally returning to his own land with a false wig and whiskers. Shortly after his arrival he encountered the breaking of the one tie that held him to the earth when his beloved Theodosia, who had stood by him when the whole world seemed to have turned against him took ship from the South to meet him in New York. The ship on which she sailed never reached port and what her fate was is to this day an unsolved mystery. One of the most tragic pictures in all American history is that of the broken, disgraced Aaron Burr, a devoted father whatever else he may have been, going down to the battery every day for years, searching the horizon for the sail of a ship which never came—the ship bringing back to him his long-lost daughter. And then as a final touch to an ill-fated career was his unfortunate marriage to the famous Madame Jumel who divorced him on the day he died.

THE SMALLER STORES

Pessimists have long predicted the gradual extinction of the small stores and their absorption by the national chains. One observer of the trend toward the dominance of combinations of capital in the retail trade wrote: "It is not pleasant to the small merchant to be dragged behind the counter as a salaried employee; a little spoke in a big wheel." The assumption was that the small independent merchant could not survive in the face of competition by these larger organizations.

But it happens that this doleful prediction is not of recent origin. It was written and published in the Springfield Republican in 1895—thirty-seven years ago. At that time the big department stores were just getting under way. Since then we have seen added menaces to the small retailer in the form of mail order houses and chain stores. Yet thousands of small retail stores have survived, many of them becoming big stores.

Naturally those who have succeeded are the ones which have kept abreast of the times, adopting new methods and policies as occasion demanded to meet the keener competition presented by the larger enterprises. And a most important factor which has contributed to the success of retailers large and small has been intelligent, persistent and adequate advertising.

PREPAREDNESS

The complexity of the problem of national defense is quite baffling to the mind of the layman, otherwise the taxpayer. But the experts evidently know all about it. At least we can only hope so.

Recently a naval expert gave an inkling of the situation when he urged the building of a number of light cruisers, saying: "The building of light cruisers to cooperate with and protect the destroyers is of very great importance." This is plain enough to be understood by everybody. But it is not all.

We have a lot of submarines, which, owing to their rather fragile construction and limited speed, require the protection of destroyers. The destroyers, as the expert convincingly states, need the protection of light cruisers. Naturally the light cruisers require, in turn, the protection of heavy cruisers, while the heavy cruisers must be protected by battleships. Then the battleships must be protected by formidable battle cruisers, and these obviously must have the protection of aircraft.

For the protection of the aircraft it appears that for the present we must depend, as in the past, upon the inscrutiable workings of a benign Providence.

U. S. GIRLS IN OLYMPIAD

So many world's records were broken in the recent Olympic games in Los Angeles that the followers of sport are still gasping at the devastation. Outstanding among the record-breakers were seven American girls who won Olympic championships, setting five new world's records.

Besides, American girl teams won the running and swimming relay races, in both of which new world's records were made. No new world's records were made by women contestants of any other nation, and only three Olympic championships were won by women of all other countries combined.

The bright particular star in this galaxy of American girl athletes was Mildren "Babe" Didrikson, of Dallas, Texas, who was the sensation of the Olympiad. She won the women's javelin throw and the hurdle race, setting a new world's record in both, and was second in the high jump, in which she broke the former world's record, and virtually tied her successful opponent.

Miss Didrikson is perhaps the greatest all-around woman athlete the world has ever known. In addition to being the premier javelin thrower and hurdler, she is a star performer in bowling, jumping, swimming, diving, shot-putting, sprinting, rifle shooting, basketball and baseball. As the Chicago Tribune said: "What a girl! She is alone in her category. The only other human being who ever combined so many superlatives in one physique was Jim Thorpe."

And Babe Didrikson is only 19 years old. She may even surpass her recent amazing performances in the Olymiad of 1936.

DULL BOYS WHO ROSE

It is not always the boy who gives the brightest promise in early life who reaches the greatest heights, as many illustrious examples may prove. In a recent lecture, Dr. Tregold, an eminent British expert on feeblemindedness, declared that Charles Darwin and Sir Isaac Newton were both backward as children, and would probably have been considered subnormal by present-day authorities.

We may also be reminded that Richard Brinsley Sheridan, the great dramatist, was characterized by his own brilliant mother as an "impenetrable dunce." Similar stories are told of early dullness on the part of Sir Walter Scott, Thackary, Wellington, Cromwell, and even the great Napoleon.

Our own General Grant, while always mentally alert, was a ne'er-do-well during a part of his life, and although he had performed creditable service in the Mexican war, resigned from the Army in 1854, and at the outbreak of the Civil war was a clerk in a store at Galen, Illinois. Yet he became the first ever to hold the rank of a full General in the United States Army and was President eight years.

These examples, with many others which might be cited, should be encouraging to those who may be considered below the average during their school years.

But they do not necessarily indicate that because a youngster is a dumb-bell he is assured of a brilliant future.

THIS PROBLEM OF MONEY

It is claimed that there is nothing fundamentally involved about the silver problem. It is simply a question of common-sense.

Debasement of silver values has deprived half the world's population of a large part of its purchasing power. It has been an important factor in depressing foreign trade to the lowest level in many years, thus destroying the livelihood of hundreds of thousands of our citizens. It has so disturbed the monetary systems of the world that permanent economic recovery is all but impossible, it is claimed, until the problem is solved.

As a matter of fact, says a recent writer, there is not enough gold to keep the wheels of international business in motion, and what gold there is, is largely controlled by two countries, France and the United States. The way out is by the establishment—through international agreement—of a fair ratio between the values of gold and silver, thus furnishing us with two money metals instead of one. Both the major political parties have pledged themselves to that. A multitude of business leaders and business associations continue to point out the need for it. The time for definite action has come.

SMOKE IS COSTLY

The annual financial loss in the United States due to smoke is estimated at nearly two billion dollars. This does not refer to fire losses nor to smoke produced by cigars, pipes and cigarettes. It is the amount wasted through the burning of coal without conserving the valuable substances contained in the smoke.

According to Gordon D. Rowe, chief smoke inspector of Cincinnati, the elimination of this waste would save enough money in a year to build a 12-inch concrete road 50 feet wide from New York City to Los Angeles and another from Chicago to New Orleans.

The smoke nuisance also pollutes the atmosphere in the vicinity of large coal-burning plants and causes considerable damage through falling soot.

Mr. Rowe declares that it is a crime against future generations to burn coal in its raw state, and recommends that it be pulverized or gasified, in order that it may be burned smokelessly and economically. By these methods the valuable by-products of coal tar may be saved, as is already being done in many industries.

When we see clouds of smoke rolling from some factory chimney, we are also witnessing the dissipation into the air of great quantities of many of the most useful substances known to man.

EUROPEAN TELEPHONES

After an experiment in government operation extending over a period of nineteen years, the Italian telephone system was returned to private control.

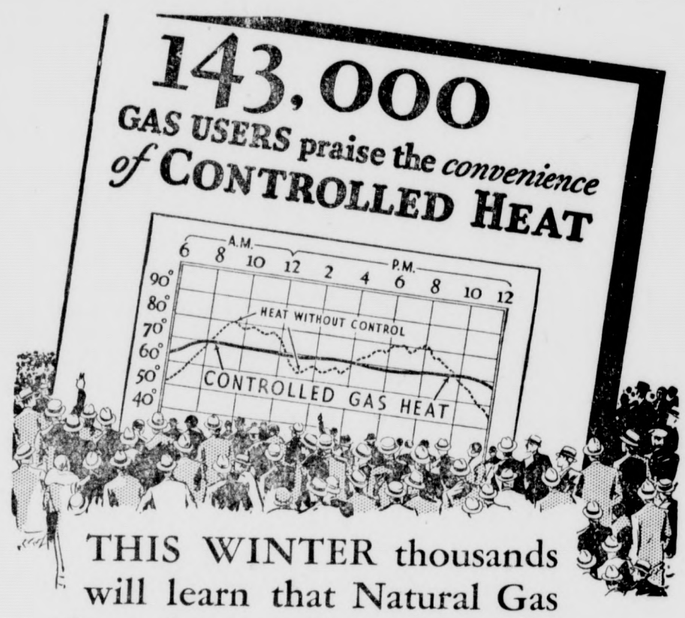
An Associated Press dispatch giving news of the change stated that the government had failed to extend the system in keeping with increasing requirements, and that the service had deteriorated to a marked degree, hence the demand for private operation.

In taking this step, Italy is following the example of Greece and Spain, which countries relinquished government control of telephones during the past year. Poland has transferred a number of its exchanges in the larger cities to private corporations in which the government is only a minority stockholder. The telephone systems of Norway, Sweden and Denmark, said to be among the best in Europe, have always been largely controlled by private interests.

While in the Uunited States the telephone has been a favorite topic for jokesmiths, we have incomparably the greatest system in the world, both in extent and in efficiency of service. We have fourteen telephones for each 100 population, while Canada has eleven, Denmark eight, Sweden seven, Germany four, Great Britain less than three, and France less than two. Omaha has more telephones in proportion to population than any other city in the world, having thirty telephones to every 100 inhabitants. In the development of this important public utility, at least, it appears that the principle of private ownership has been amply vindicated.

Because of the depression, tobacco has been removed from the menu of the county jail at Oroville, Montana.

143,000 GAS USERS praise the convenience of CONTROLLED HEAT



THIS WINTER thousands will learn that Natural Gas gives clean, easily controlled heat.

CONTROLLED HEAT

With gas fuel you can have maximum heat instantly available and keep it regulated to any temperature desired. Controlled heat from gas heating equipment is possible by merely turning a valve or handle, by pressing a button to get high, low or medium heat, or by setting an electric thermostat to automatically maintain any desired temperature.

NOW say Goodbye to "if" and "maybe" in house-heating. These 143,000 Northern and Central California people must be right because through the long winter of extreme cold last year they enjoyed Controlled Heat that gave them Comfort Zone warmth from Natural Gas.

Thirty days from today, possibly sooner, you may wake to see rain slashing down window-panes. Will this mean that through the long winter days to follow, your house will half the time be too hot and half the time too cold? Will this mean you are going to be drafted back to that old, old duty of coaxing balky and old-fashioned heating equipment? Or will you enjoy Comfort Zone warmth by Controlled Heat with Natural Gas?

Nature has never made, nor man ever utilized, a finer fuel than Natural Gas. Heaters and furnaces for its use are at once dependable, low in cost and entirely carefree. See these modern gas heating devices at the nearest office of the P. G. and E., or see your local heating dealer. Select the type best fitted to your home needs. Then enjoy clean, economical, carefree heat from a fire that needs no tending.

Natural Gas will maintain this "Comfort Zone" 65° 71° at low cost

Colma News Notes

Mr. Jerry Horkey spent last week on a deer hunting trip near Sonoma.

Miss Josephine Baldetta, of Collinsville, spent last Sunday with Mrs. John Garibaldi.

Miss Mae Cadematori, of San Francisco, spent last Friday evening with friends in Colma.

Mr. Ray Greene and children, Ruth and Owen, spent the holiday week end at Martin's Beach.

Mrs. Marie Spuri, of Los Angeles, sister of Mrs. Fred Lane, is spending this month with relatives here.

Mrs. Frank Bregante and son Frank, of South San Francisco, spent last Saturday with Mrs. Edith Nielsen.

Mr. Raymond Silicani spent last Sunday in South San Francisco as the guest of Mr. and Mrs. Frank Bregante.

Mrs. Mary Zipser and Mr. Richard Zipser motored to Modesto last Monday to spend the day with Mr. and Mrs. Zipser.

Mr. and Mrs. Peter Ramer and children motored to Paso Robles last Saturday to sepnd the holiday week end with Mr. and Mrs. Zimmerman.

Mrs. Fred Lane and daughter Phyllis spent several days in South San Francisco with Mrs. Lane's mother, Mrs. Lemon, who has been quite ill, but at present writing is feeling much improved.

Miss Alma Pasalacqua entertained a few of her friends at a delicious dinner on Thursday evening of last week. Those present were Misses Mary Nolan, Frances Spani, Lorraine Gregoire, and Caroline Spani.

Mr. and Mrs. Andrew Hammer are receiving congratulations upon the arrival of a baby boy, born in San Francisco last week. Mother and baby are doing nicely. Mr. Hammer is the head gardener of Cypress Lawn cemetery.

Mr. and Mrs. Al Rogers, of Oakland, (nee Isla Benedetti) and sons, Mr. and Mrs. Colombo Benedetti and daughters, Mr. Angele Benedetti and Miss Ida Silva spent last Monday as the guests of Mrs. F. Benedetti, of Vale street.

A very enjoyable day was spent at Rockaway Beach last Monday by Mr. and Mrs. Jack Callan, Gladys, Jack, Jr., and Robert Callan, Mr. and Mrs. Tom Fahey, Dorothy and Tom Fahey, Jr., Mr. and Mrs. Earl Jones, Mr. and Mrs. Joe Flannigan and family, Mr. and Mrs. Robert Silicani and family, Mr. and Mrs. Dave Caffaretta and son, and Messrs. John Fahey and Denny Fahey.

L. A. Burns, of Santa Cruz, spent Friday with friends in Colma.

Miss Alvina Jost and a party of friends spent Sunday horseback riding in San Rafael.

Mrs. J. T. Casey spent last week end in Half Moon Bay with Mr. and Mrs. R. D. Savage.

Mr. and Mrs. L. S. Martinelli were dinner guests of Mr. and Mrs. Lelio Martinelli last Sunday.

Miss Dorothy French, of Sacramento, spent last Monday with Mr. and Mrs. Bert French.

Mrs. H. Remington and daughter Phoebe spent Wednesday with Mrs. E. Suacci, of San Francisco.

Misses Elizabeth and Alma Camenzind spent the holiday week end with friends in Sebastopol.

Mr. and Mrs. Fred Temps are the proud parents of a baby boy, born in in San Francisco last week.

Miss Geneva Lucas and a party of young people motored to San Jose to attend the auto races last Sunday.

Misses Matilda and Philomena Barsotti were guests of Misses Alice and Elsie Silicani during the past week.

Mrs. Frank Romani and son Frank spent a very pleasant afternoon one day last week as the guests of Mrs. Maffei.

Mr. and Mrs. Louis Torre, of Bruno avenue, were dinner guests of Mr. and Mrs. William Becker last Sunday evening.

Mrs. Lottie Peterman, of Fresno, is spending this week with Mr. and Mrs. Bert French, of the Golden Gate Auto Court.

Mr. and Mrs. Kreutzeberg have just returned from the national convention of Veterans of Foreign Wars, which was held in Sacramento.

Miss Leola Branscum, accompanied by Mrs. Josephine Green and children, spent an enjoyable evening in San Francisco one evening last week.

Mr. and Mrs. Attilio Arata and Mr. and Mrs. Robert Cullen, of Daly City, spent Wednesday evening of last week with Mr. and Mrs. L. S. Martinelli.

Messrs. John Lazzarini, Angelo Stampanoni and Pat Ballentini have returned home after spending several days dove hunting, returning with the limit.

After residing at No. 3 Garibaldi street for many years, Mr. and Mrs. Louis Robinson and daughter Myrtlebelle, moved to San Francisco during the past week.

During the early part of last week Mr. W. H. Dingman and Mr. J. A. Ramsey moved to Oakland, where they will spend several months before returning to their homes south.

A ye old fashioned quilting Bee is being held at the library building in Colma for the benefit of the Community Christmas fund. Those participating in the sewing are Mesdames E. Schwartz, E. Woolsey, L. Landini, F. Volkman, Mrs. Savage, M. Censerva, F. Silicani, H. Lucts, and H. Remington, and Misses Geneva Lucas and Elsie Figoni.

The members of the Girls' Club of Colma were given a get-together supper by Mrs. Brown on Thursday evening of last week, the evening being thoroughly enjoyed by all who were fortunate enough to attend. Those present were Mesdames Emilie Vallerino, Pauline Brown, Josephine Lambertson, Pauline Shinazy and Violet Jess, and Misses Alice Thiel, Elsie Wilke, Fabian Ver Linden, Anna Kennedy and Bertha Thiel.

In Italian ravioli luncheon was served in honor of the second anniversary of the Auxiliary of Foreign Wars, Galbraith, Jr., No. 818. Those present were: President Ella Shipper; Mesdames C. Massberg, F. Caplan, M. Bachman, R. Kreutzberg, H. Hoots, H. Manger, H. Remington, C. Butts, W. Metlock, J. Palmer, V. Van Dolk, B. Farroll, D. Donahoe, J. Endler, E. Suacci, F. Jordon, E. Brown, and Misses Vera Massberg, Dorothy, Emma and Martha Fayles, and Helen Jordan.

Mr. and Mrs. P. L. Peterson entertained at a delicious dinner last Monday evening, the occasion being in honor of the fourteenth anniversary of their wedding. Those whe enjoyed a splendid evening and wished them many more happy anniversaries were Mr. and Mrs. Jack Dennis. John Jr., Edward, Robert and George Dennis, Mr. and Mrs. John Garibaldi and daughter Joan, Mr. and Mrs. L. S. Martinelli and sons Lorrin and Robert, Mr. and Mrs. Louis Torre and sons Buster and Junior, Messrs. John Wohlers, Chas. Smith, Louis Wohlers, Frank Del Buono, Masters Laurence and Milton Peterson and Miss Dorothy Peterson. Mr. and Mrs. Peterson received many useful gifts.

Mr. and Mrs. Joseph Camenzind entertained several friends and relatives one evening last week in honor of the thirtieth anniversary of their wedding.

Mr. and Mrs. Henry Lucas received congratulations from their many friends upon the twentieth anniversary of their wedding, Saturday, Auguest 27.

Mr. and Mrs. Leland Vallerino (nee Emily Wilke), who have resided in San Francisco for the past year, have moved to Brunswick street, Daly City, during the past week.

Mr. and Mrs. John Garibaldi received hearty congratulations of their many friends and relatives upon the third anniversary of their wedding, on Wednesday, August 31.

Mr. and Mrs. Joe Merlo and daughters and Miss Irene Moresco were among the many residents of this section who attended the Daly City Merchants' picnic last Sunday.

Mesdames Marie Arata and Robert Cullen and Misses Frances Spani, Manry Nolan, Lorraine Gregoire, Virginia Cullen and Helen Coughlan attended the Catholic Daughters' swimming party held at the Women's Swimming Club in San Francisco.

Mr. and Mrs. Harold Callan are receiving the congratulations of their many friends upon the arrival of a baby boy, born the early part of this week. Mother and baby are doing nicely. Mrs. Callan before her marriage was Miss Norma Perata.

The many friends of Mr. Albert Witt, Sr., were indeed sorry to hear that he met with a painful automobile accident while riding with one of his employes last Friday morning. The accident occurred at San Jose avenue and Monterey boulevard. At present writing Mr. Witt is still confined to his bed and under the doctor's care. His many friends extend him their best wishes for a speedy recovery.

The Five Friends Club entertained their members, their wives and sweethearts at a delicious steak barbecue at their club rooms on Hillside boulevard, last Saturday evening. Music was the diversion of the evening, the excellent accordion music being provided by Mr. George Bertetta. An enjoyable time was had by all who took part, the party lasting until the early hours of Sunday morning. The members of the committee in charge were Messrs. Fred Lane and Adolph Cecchi. John Garibaldi and James Grondona were chief cooks.

COLMA MERCHANTS DEFEAT THE J. SHUSSLER & CO. TEAM

The Colma Merchants' baseball team chalked up another victory last Sunday afternoon at the Bryant diamond, defeating the J. Shussler & Co. team by a score of 6 to 2. In doing so the Marchants defeated a team that is entering the Class A Winter League. Bob Silvestri again pitched great ball, allowing but six hits, all coming in the first four innings. The fourth inning was Silvestri's only bad inning, when he gave a walk and two hits with no outs. In this inning the opposing team scored one run. Silvestri saved himself from more trouble by stopping a hard hit ball through the pitcher's box to convert it into a double play.

Baur and J. Franzoia made some great catches in the outfield, with Crowe doing some classy fielding at second base. Boehle, Colma's new catcher, looks like a natural behind the plate.

The Colma Merchants are planning to enter the Class B Winter League.

The box score for Sunday's game follows:

J. Shussler & Co.	AB.	R.	H.
Leary, 2b	4	0	1
Minto, ss	4	0	1
C. Kaufman, 3b	4	0	1
Foy, 1b	4	0	0
Sillindeck, c	3	0	0
Taylor, cf	4	0	1
Lyons, rf	4	0	0
Hicks, lf	4	1	1
Swanson, p	3	1	1
Critch, p	1	0	0
Totals	35	2	6

Colma Merchants	AB.	R.	H.
Guisto, ss	5	1	1
Crowe, 2b	4	2	1
Petrocchi, rf	4	1	1
Varni, 3b	4	0	0
Sanders, 1b	4	0	1

Boehle, c	4	1	1
Silvestri, p	3	1	0
J. Franzoia, lf	4	0	1
Totals	35	6	6

ELECTRIC CASSEROLE

There is a new electric casserole. It can be attached to any convenience outlet or lamp socket, and cooks a surprising number of dishes. Its two quart capacity makes it practical even for large families. The casserole has a heat control switch, so it can be put on low heat and left for extended periods without attention.

POOL LIGHTS IN DEMAND

Underwater lights in swimming pools are gaining wide popularity. The Westinghouse Electric and Manufacturing Company reports orders for tank lamps from Illinois, Texas, Holland and Honolulu. Lighting of the Olympic Games tank in Los Angeles spread the idea.

SOMETHING NEW

An unusual streamline design that is said to reduce wind resistance to a minimum is a feature of a late light bombing airplane just received by the United States Army Air Corps.

At a glass works plant in Corning, N. Y., a new machine makes 442 electric light bulbs a minute.

A new three-story bus, made of light-weight metal and carrying eighty-eight passengers, has been put into service in Italy.

A Dutch manufacturer has designed and perfected an electric motor and storage battery for bicycles.

A new type airplane designed to travel possibly 500 miles an hour through the rarefied atmospher far above the earth has been virtually finished by the Junkers Company of Germany.

Government scientists have found that rich soil protects corn against frost.

By crossing two different rubber vines native to Madagascar, government scientists have produced a plant which yields twice as much rubber as either of the parents.

The first pneumatic-tired car of stainless steel built in the United States for the French Railway has been finished and named the Lafayette.

Synthetic perfumes are being applied to such manufacteured articles as paper, rubber, paint, disinfectants, and other products to make them more attractive.

A new burglar alarm, which photographs an intruder and renders him helpless with tear gas while police are speeding to the scene of the robbery, has been invented in Pittsburgh.

Esparto grass, which covers vast stretches of the high plateau in Algeria, is becoming increasingly popular as a paper-making material.

German societies for prevention of cruelty to animals are advocating rubber shoes for horses instead of iron.

Mail was transported by rocket for the first time recently when a shell containing 300 letters was shot from the top of the Hoch-Troetsch mountain to Semriach, Austria, a distance of a mile and a quarter.

An English scientist has developed a process for producting from crude sugar a substance as transparent and as hard as glass.

To prevent the unauthorized use of the telephone by persons not entitled to its convenience, a means of locking the dial type of instrument has been devised.

A glass weaving factory abroad has developed a process for making wallpaper from glass.

German hospitals have been experimenting with a new method in X-ray diagnosis, by using paper instead of photographic plates or films.

A psychist at the University of Cincinnati has devised a wave-motion machine by which he can demonstrate more than thirty forms of light, heat and sound waves.

A Dutch engineer has invtnted a camera by which it is readily possible to make a complete and minute inspection of the interior of a five and one-half inch drill hole.

A drinking fountain which spouts when the drinker merely bends over it has been installed in an office building of the General Electric Company.

A transparent adhesive tape that requires no moistening has been produced from cellophane.

Lamps, radios and other electrical devices can be automatically turned on or off by a combination electric clock and time switch which uses a self-starting, slow-speed motor.

A new experiment in transportation is a ferry boat that runs on a trolley wire.

Museum workers who were reconstructing one of the long-extinct saber-toothed tigers, devised false teeth of monel metal to make the animal look more real.

An American firm has produced a water-proof glue from the casein of soy beans.

A Berlin smoker has invented a new type of match which ignites when torn from a roll of paper on which sulphur dots are placed.

The latest thing to be patented is a bullet-proof vest that will stop a revolver shot at five paces. The final test, however, will come when it is sent to the laundry.—Judge.

Bobby (at the zoo): "Oh, mamma, that monkey looks exactly like Uncle Ned."

Mother: "Why, Bobbie, the idea! You shouldn't say such things."

Bobby: "Aw, mamma, the monkey can't understand."—The Blue Anchor.

PROTECTION OF CHILD SAFETY MOVE OBJECT

Efforts to give children greater security from traffic accidents are in progress this month in two fields of activity—among children themselves and among motorists. The public safety department of the California State Automobile Association is devoting its September school poster and lesson material to a general review of traffic safety principles for children, particularly the younger ones who are now going to school for the first time. The California Committee on Public Safety, with which the Automobile Association co-operates, is conducting a state-wide campaign this month to impress the motorist with the need for careful driving where children are present, particularly in school zones.

The safety instruction material of the Association public safety department for September has been distributed to more than 13,000 classrooms in northern and central California. The poster, showing children being dismissed after school, emphasizes a "Safety First" theme. The lesson suggestions for use of teachers point out the need for reimpressing children with ideas of safety following their return to school after the long vacation. Principal causes of traffic accidents to children are listed in the lesson material as follows:

Running into the street; crossing in the middle of a block, or at a point other than a recognized pedestrian crosswalk; playing in streets or highways; hitching onto automobiles; riding bicycles or scooters in the street; and roller skating in streets or highways.

The California Committee on Public Safety is urging motorists to realize that the major share of responsibility for preventing accidents to children rests with the person at the wheel. Attention is also being drawn to the state law which limits speed to fifteen miles per hour when passing a school building or grounds at such times as children are entering or leaving school or using school playgrounds.

"Obey the Rule—Slow Past a School," is the slogan adopted by the committee for use in connection with its campaign.

NOTICE OF PUBLIC SALE OF AUTOMOBILE TO SATISFY LIEN.

Notice is hereby given that on Friday, September 30, 1932, at the hour of 10 o'clock A. M. of said day, at the premises known as M. Belli Co., Ltd., situated in Colma, San Mateo County, State of California, the undersigned will sell at public auction, for cash in gold coin of the United States, the personal property herein below described.

Said auction and sale will be made under and by virtue of the provisions of Section 3051 and 3052 of the Civil Code of the State of California, and for the purposes of satisfying liens of the undersigned on the respective items for services rendered the owner of said item by the undersigned in towing, repairing, storage and safe keeping said item of said personal property, together with the costs of this sale.

Said item of personal property and the amount due thereon is as follows:

Graham Paige 6-cylinder five-passenger Sedan; 1929 Model; Motor No. 559193. Serial No. 552176. Lien, $99.99.

M. BELLI CO., Ltd.
Colma, California.

Sept. 9, 16, 23, 1932.

NOTICE OF TRUSTEES' SALE

On Monday, the 14th day of September, 1932, at 9 o'clock A. M., at the front entrance to the Town Hall in the City of Daly City, County of San Mateo, State of California, Henry S. Bridge and Harry B. Allen, as trustees, will sell, at public auction, to the highest bidder, for cash in lawful money of the United States, the following described real property, situated in the City of Daly City, County of San Mateo, State of California, bounded and described as follows:

Lot Thirty-eight (38) in Block Seven (7), Vista Grande Map No. 1, on record in the office of the County Recorder of the County of San Mateo, State of California.

Said sale will be made to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust, executed by and between August Violante and Grace Violante, his wife, to Henry S. Bridge and Harry B. Allen, as trustees for the benefit and security of Carrie E. Bridge, dated November 10, 1927, and recorded on November 15, 1927, in the office of the Recorder of the County of San Mateo, in Volume 325 of Official Records, at page 216.

Notice of breach of said obligation and election to sell said real property was recorded in the office of the said County Recorder on the 18th day of May, 1932, in Volume 561 of Official Records, at page 370.

This notice is given in compliance with the demand heretofore made on the trustees.

Dated: August 16, 1932.

Allen, as trustee, will sell, at public auction, to the highest bidder, for cash in lawful money of the United States, the following described real property, situated in the City of Daly City, County of San Mateo, State of California, bounded and described as follows:

Lot Number Thirty-nine (39) in Block Number 7, as per Map of Vista Grande No. 1, San Mateo County, recorded in the office of the County Recorder of the County of San Mateo, State of California.

Said sale will be made to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust, executed by and between Henry P. Wood and Georgia C. Wood, his wife, to Henry S. Bridge and Harry B. Allen, as trustees for the benefit and security of F. Currier, dated December 16, 1927, and recorded on December 23, 1927, in the office of the Recorder of the County of San Mateo, in Volume 330 of Official Records, at page 262.

Notice of breach of said obligation and election to sell said real property was recorded in the office of the said County Recorder on the 18th day of May, 1932, in Volume 565 of Official Records, at page 222.

This notice is given in compliance with the demand heretofore made on the trustees.

Dated: August 16, 1932.

HENRY S. BRIDGE,
HARRY B. ALLEN,
Trustees.

Aug. 19, 26; Sept. 2, 9, 1932.

A kitchen stove that requires only one stick of wood to cook a whole dinner has been invented by two Swedish engineers, O. Stalhame and H. Svensson.

NOTICE OF TRUSTEE'S SALE

WHEREAS, default has been made in the payment of the indebtedness secured by, and in the performance of the covenants contained in, that certain deed of trust dated May 14, 1927, made, executed and delivered by William A. Newsom, Jr., a single man, as trustor, to National Bankitaly Company, a corporation, as trustee, for Bank of Italy National Trust and Savings Association, a national banking association, beneficiary, which deed of trust was recorded in the office of the County Recorder of San Mateo County, State of California, on May 18, 1927, in Volume 299 of Official Records, at page 131 et seq., San Mateo County Records; and

WHEREAS, the lawful owner and holder of said deed of trust and the debt thereby secured has applied to and directed the trustee under said deed of trust in writing to execute the trust by said deed of trust created, and to make sale pursuant thereto; and

WHEREAS, notice of breach of the obligations of the trustor have been recorded as is provided by law, and more than three months have elapsed since the said recordation, and said trustee deems it best to sell said premises and estate as a whole now remaning subject to said deed of trust in order to fulfill the purposes thereof.

NOW, THEREFORE, NOTICE IS HEREBY GIVEN that on Monday, the 26th day of September, 1932, at the hour of 11 o'clock A. M., thereof, at the front door of the San Mateo County Courthouse, situated in the City of Redwood City, County of San Mateo, State of California, the Corporation of America, a corporation, as trustee, will, under and pursuant to the aforesaid deed of trust, sell at public auction to the highest bidder for cash in United States gold coin, the following described real property, mentioned in said deed of trust, situated in the City of Daly City, County of San Mateo, State of California, and more particularly described as follows, to-wit:

BEGINNING on the northwesterly line of Brunswick Street at a point distant southwesterly thereon one hundred and fifty-three (153) feet from the point of interesection thereof with the southwesterly line of Acton Street; running thence southwesterly along the northwesterly line of Brunswick Street twenty-five (25) feet; thence at a right angle northwesterly one hundred and six (106) feet, six (6) inches; thence at a right angle northeasterly twenty-five (25) feet; thence at a right angle southeasterly one hundred and six (106) feet, six (6) inches to the point of beginning.

BEING a portion of lot numbered seven (7) as shown on that certain map entitled "Map of the property of the West End Homestead Association", filed in the office of the County Recorder of San Mateo County, January 25, 1865, in Book 4 of Deeds at page 415.

Dated: San Francisco, California, August 27, 1932.

CORPORATION OF AMERICA, a Corporation, as Trustee.
By W. E. BLAUER, Vice-President.

Sept. 2, 9, 16, 23, 1932.

NOTICE OF TRUSTEES' SALE OF REAL ESTATE UNDER DEED OF TRUST.

On Wednesday, the 21st day of September, 1932, at the hour of eleven o'clock A. M., at the main entrance of the City Hall, No. 51 Wellington Street, in the City of Daly City, County of San Mateo, State of California, the undersigned as trustees will sell at public auction to the highest bidder for cash, in lawful money of the United States, the following described property situate in the City of Daly City, County of San Mateo, State of California, to-wit:

Lot 27 in Block 25 as designated on the map entitled "Map No. 1 Vista Grande, San Mateo Co., Calif.", which map was filed in the office of the Recorder of the County of San Mateo, State of California, on November 5, 1906, in Volume "C" of Maps at page 35 and a copy thereof entered in Volume 4 of Maps at page 41.

Said sale will be made to satisfy the obligations secured by and pursuant to the power of sale conferred in a certain deed of trust executed by and between George R. Smalley and Carrie Smalley, his wife, as trustors, to Rudolph Mohr, Jr., and Howard E. Mohr, as trustees, for the benefit and security of Moneta Investment Company, a California corporation, dated September 25th, 1926, and recorded on October 15th, 1926, in the office of the County Recorder of the County of San Mateo, State of California, in Book 259 of Official Records at page 363 thereof. Notice of breach of said obligation and election to sell said real property was recorded in the office of said County Recorder on May 18th, 1932, in Book 566 of Official Records at page 193 thereof.

This notice is given in compliance with the demand of the beneficiary, Moneta Investment Company, a California corporation, made the 23rd day of August, 1932, in writing, on the undersigned trustees.

Dated: San Francisco, California, August 25, 1932.

By RUDOLPH MOHR, JR.,
By HOWARD E. MOHR,
Trustees as aforesaid.

Aug. 26, Sept. 2, 9, 16, 1932.

NOTICE OF TRUSTEES' SALE

2389.

On Wednesday, the 14th day of September, 1932, at the hour of 11:00 o'clock A. M., at the main entrance of the City Hall of the City of Daly City, County of San Mateo, State of California, No. 51 Wellington Avenue, in the City of Daly City, County of San Mateo, State of California, the undersigned, Geo. M. Mitchell and J. Dimmer, as trustees, will sell at public auction to the highest bidder for cash in gold coin of the United States, the following real property, situate, lying and being in the City of Daly City, County of San Mateo, State of California, and described as follows, to-wit:

Lot Numbered Twenty-three (23) as in Block Numbered Eighteen (18) as shown on that certain map entitled "Map of the Crocker Estate Tract Subdivision No. 1", filed in the office of the County Recorder of San Mateo County June 1st, 1908, in Book 6 of Maps, at page 16, being more particularly described as follows:

BEGINNING at the point of intersection of the Southeasterly line of Hanover Street with the Northeasterly line of Evergreen Avenue, formerly Green Avenue; thence Southeasterly along said line of Evergreen Avenue 25 feet; thence Northeasterly parallel with said line of Hanover Street 100 feet; thence Northwesterly parallel with said line of Evergreen Avenue 25 feet to said line of Hanover Street; thence Southwesterly along said last named line 100 feet to the point of beginning.

Said sale will be made to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust executed by Paul B. Duerner and Marciel M. Duerner, his wife, to Geo. M. Mitchell and J. Dimmer, as trustees for the benefit and security of Home Mutual Deposit-Loan Company, a corporation, dated October 26, 1927, and recorded in the office of the County Recorder of the County of San Mateo, State of California, on the 29th day of October, 1927, in Volume 321 of Official Records, at page 367.

Notice of breach of said obligation and election to sell said real property was recorded in the office of the County Recorder of the County of San Mateo, State of California, on the 12th day of May, 1932, in Volume 561 of Official Records at page 330.

This notice is given in compliance with the demand made on said trustees by the beneficiary.

Dated: August 16, 1932.

GEO. M. MITCHELL, Trustee.
J. DIMMER, Trustee.

Milo R. Robbins, Attorney for Trustees, 663 Mills Building, San Francisco, California.

Aug. 19, 26; Sept. 2, 9, 1932.

FROM THE BEGINNING

In the California sierra Mark King, prospector, sees Andy Parker killed by Swen Brodie, Parker's outlaw companion. King is on his way to the home of his friend, Ben Gaynor. King and Gaynor share with Brodie knowledge of a vast store of hidden gold. King meets Mrs. Gaynor and is impressed by her daughter Gloria's youthful beauty. He dislikes a house visitor named Gratton. With Gloria, King rides to Coloma, intending to "sound" Honeycutt. He finds Brodie with the old prospector, and animosity flares. Their companionship for a day draws King closer to Gloria. Gloria and her mother return to San Francisco. In a spirit of adventure Gloria accompanies Gratton on a "business" trip. At Coloma she finds her father badly hurt. He gives her a message and a package for King, urging her to get them to him at once. Gloria realizes how she has compromised herself by her journey with Gratton. He proposes marriage, and Gloria apparently accepts him. Gratton arranges for the marriage by a country "judge." King comes to the house, unseen by Gloria. Informed of the coming ceremony, he watches it from a window. At the last moment Gloria refuses to utter the requisite "yes." In the resultant confusion King enters the room and Gloria appeals to him for protection. Gratton, dismissed, reveals his knowledge of the hidden gold and makes threats.

CHAPTER V—Continued

—11—

"He will do whatever I ask him to do," something sang within her.

"Won't you sit down with me, Mark?" she smiled at him.

"I have eaten," he said a trifle harshly, she thought.

"You are so good to me." She stirred her coffee and he saw only the lashes and their black shadows on her cheeks.

The human comedy had begun, or the comedy begun long ago was resumed smoothly in its third act. After that it was neither Gloria nor King who played the part of stage director; that time-honored responsibility was back in the hands of the oldest of all stage managers.

King saw lying on the table the package done up in an old cloth which she had brought. Further, he knew that he had seen it before and where he had seen it. He knew that at last he had old Loony Honeycutt's secret where he could put out his hand to it, with none to gainsay him. He knew that with it was a message from his old friend Ben; that Ben, himself, lay at this moment in Coloma hurt. And yet his eyes clung to the eyes of Gloria and all of these things were swept aside in his mind. There are urges which must be obeyed, the urge of spinning worlds to circling suns, the urge of man to maid.

"Gloria!" he said huskily. "Gloria!"

"Yes, Mark?" she said quietly, trying to speak very calmly and as though she did not know, oh, so well, all that tumult that lay behind his calling her name.

She knew what was in his heart! His soul exulted as the certainty rushed upon him. And the color merely deepened in her cheeks while she hid her eyes from him.

He came to her swiftly. She rose as swiftly to her feet. Like magnet and steel they were swept together. He felt her body tense but unresisting in his arms; suddenly she relaxed, her head was against his breast. Gloria in his arms—Gloria's sweet face hidden from him against his rough shirt—

"Gloria!" he cried again. "Gloria!"

She freed herself, and while he let her go he stood watching her with the new look in his eyes. Scarlet-faced she flashed her look at him from across the table.

"Please, Mark," as he moved toward her. "You haven't read papa's letter yet. And—and I'm dying to know what is in that funny package. Aren't you?"

"If I'm dying at all," he told her gravely, though he found a smile to answer her own—and two very serious smiles they were—"it is of quite another complaint. And this time—"

"But please, Mark! I am here all alone—with you—and—"

"I know. I haven't forgotten. But, Gloria— Some time you are going to give yourself to me, aren't you, dear? While Summerling is still here, won't you let him marry us? It will give me the right to shut that fool Gratton's mouth for him and— Oh, Gloria, my dear, my dear— Will you, Gloria?"

And then from lips which did not smile he heard the very faint but no longer elusive "Yes."

"Now, Gloria?"

"Yes, Mark. If you are sure that you want me." She spoke humbly; at the instant she was humble. "But," she added hastily, "still you haven't read poor papa's letter. He was very anxious. Let me go a minute, Mark. I am going upstairs. I—I want to phone to mamma first. And while I am gone you can read papa's letter, and—and—" Her face was hot with blushes.

"And arrange with the judge," he said, his own voice uncertain. "Yes, Gloria."

She ran by him then. He heard her going upstairs, he heard a door closing after her. Then like a man who treads on air he went to the window and threw it up and called:

"Jim! Tell the judge not to go. I have business with him. I want him and you here in ten minutes."

And then when Jim's voice had answered him he thought to take up the parcel on the table. A hurried letter from Ben and the parcel from Honeycutt's. Something here for which he had been seeking, working, for years, remembered now only because Gloria had made the request that they be not forgotten.

But Ben's words caught him when he had read the first line. He had opened the packet, ripping off the old encasement of cloth. There was a book, a Bible that looked to be centuries old, battered, the covers gone; Gaynor's letter was slipped into it:

DEAR MARK:

Honeycutt's dead. I've got his secret. But Brodie came near doing me in. Honeycutt, dying, sent for me. I got there just in time. He gave me the Bible; it was the "parson's" and then Gus Ingle's. As I was going out of the cabin Brodie and two of his gang swooped down on me. In the dark I pitched the Bible clear and they did not see; it was just that near! They came close to killing me; when I came to I found they'd been through my pockets. I don't know how much Brodie knows. I do know he is working with Gratton, the dirty crook. I think you can beat them to it, hands down. And, for God's sake, Mark, and for my sake if not for your own, don't let the grass grow! I am on the edge of absolute bankruptcy; laid up this way I don't see a chance unless you find what we've been after so long and find it quick. Will you start without any delay? As soon as you get this phone to Charlie Marsh at Coloma. Leave word for me. And let that word be that nothing on earth will stop you! Then I won't go crazy here with worry.

BEN.

A bit of the old interest swept back over King as he read; the old excitement raced through his blood. He dropped Ben's note into the stove and

"He Will Do Whatever I Ask Him to Do," Something Sang Within Her.

eagerly took up the old Bible. There was the "secret" at last—Gus Ingle's message come to him across the dead years:

Good god I never see such gold nor no man neither and when he come into camp you could reed in his look he had found it because no man could have looked at that Mother load and not look like Jimmy. And big Brodie grabbed him by the throat and shook him and nearly killed him until Jimmy told. We went down the gorge to the narrow place over on the big seedar that had broke off and that was how we come to the First Caive, and then we come to Caive number thre and two. And for two weeks maybe thre we lost track of time until this grate big pile of gold was dug that I am setting right on top of right now how can a man eat gold when he is dying of hunger and burn it when he is freezing. And it was big Brodie killed pore Manny I seen him and the next day or maybe it was two days Dago was gone and never come back was it Manny's goast got him and drug him down the cliffs screaming horrible and in the gorge—anyway that was Two. and I am all that is left and I am going—I tride to get out and the Big storm drov me back and all I can see is Jimmy Kelp and the parson if I had not of killed them they would killed me sure and big Brodie's gone he is crazy and cant never make it back across the mountains in this storm. and Baldy Winch he took a big nugget and went off, and he stoled what handful of grub there was. If I write all this in the Bible that was preacher Elsons and tie it up safe in oilcloth and canvas and make a bote out of a chunk of wood and throw it in the river maybe it will get to one of the camps down there and a good man will find it and He give him half. You come up the old trail past where the thre Eytalians had their camp last year and over the big mountain strate ahead and about another seven miles strate on and then there is the pass with the big black rocks on one side and streaks of white granite on the other and down into the gorge and strate up four or five miles where the old seedar broke off and fell acrost. My god here goes.

GUS INGLE.

To any man who knew the Sierra hereabouts less intimately than did Mark King, Gus Ingle's message would have brought only stupefaction. But to King now, as to Ben Gaynor before him, the "secret" lay bare. Old names held on; the three Italians had given a name to what was now known as Italy Gulch. The caves were on a certain fork of the American river then, and King had approximately the distances and direction.

He thrust the old Bible into his shirt. There were steps on the porch. Jim and the "judge" were coming—

CHAPTER VI

"It strikes me," said Summerling sarcastically, "that there's mighty funny goings-on here tonight. I show up to marry one man to a girl and nex' thing I know—"

"Never mind that," cut in King hastily. "You are going to marry her after all. Only to another man."

"Meanin' you, Mark?" demanded Jim. For the life of him he couldn't decide whether he or every one else had gone crazy.

King flushed under the look, but nodded and managed a calm, "Yes, Jim."

He led Summerling and Jim into the living room, closing the door.

"Now if you folks are ready," said Summerling. "I've got a long ride ahead of me."

This time Gloria did not keep them waiting. She came down the staircase to Mark King standing at the bottom. In her pink dress, like a thistledown, floating down to him. He was thinking—she, too, remembered—how for the first time they had met thus. She smiled at him; she put out her two hands to him as she had done that other time. And right there they were married—on Gus Ingle's old Bible.

"It's done!" whispered Mark, bending over her. "You are mine now; mine for all time, Gloria. And, girl of mine," he added reverently "may God deal with me as I deal with you."

"It's done!" In an awed little voice came Gloria's response, like an echo. Mark King had seen her across the quicksands.

Jim and the "judge" had gone. They two were alone in the still house. Gloria was nervous; King could see that and thought that he understood. So he went for wood, made a cheery blaze in the fireplace, and drew two chairs up to it.

"Tell me about papa's letter," said Gloria hastily. Had there not been that obvious topic she would have caught at another, any other.

King put out his hand for hers, and while Gloria looked into the fire and he looked into her face, he told her. At the end he brought out Gus Ingle's Bible and read to her what was written in it.

"And you know where it is?"

"I can go to it as straight as a string. Two days to get to it and to stake a claim; two days to come out with a couple of horses loaded to the guards. And that itself means a fortune, if it's clean, raw gold, as would seem to be the case. We need not fear the poorhouse, you and I, Mrs. King!"

"But Brodie? And Mr. Gratton?"

"They don't know where it is! They can't know, since we've got the Bible, and Honeycutt was dead before they got to him! If they knew they would have been on their way already. And I'll be striking out before dawn, leaving no such trail that they can follow it in a hurry, even if they should seek to."

"You are going so soon? Papa wanted that?"

"He wanted me to telephone as soon as I got this." He rose, lingering over her. "We mustn't forget him, even for our own happiness."

"I—I am going upstairs, Mark," called Gloria after him.

"All right, Queen of the World," he answered her. "I'm just to phone in a message for him. It won't take me five minutes to get it done; just to say: 'Tell Ben that I start at dawn and that he's got my word for it that nothing's going to stop me! And—that I've just married Gloria!'"

He got his message through, and Gloria was still upstairs. When time passed and she did not come, he went up softly and to her door. It was closed and he knocked lightly, then dropped his hand to the knob, awaiting her voice.

His knuckles had hardly brushed the door, this door which he approached in reverence; Gloria had not even heard him. He called softly, his voice little above a whisper:

"Gloria!"

He heard her move; for a moment she did not answer. He could not know how she stood, scarcely breathing, her hands at her breast; nor how, now that the great step was taken, she was again half frightened, half regretful, altogether bewildered and uncertain. Of herself, of him, of everything—

"Is it you, Mark?"

"Yes. May I come in, Gloria?"

"Please, Mark. It's all so new, so strange . . . I intended to come right back downstairs but I'm so tired. Mark. I want to be alone a little; to think. You don't mind, do you, Mark?"

He answered promptly and heartily, refusing to allow himself to harbor a shadow of disappointment.

"No. No, of course not. You will go right to bed? I know you must be half-dead for sleep."

"Yes. . . . Good night Mark."

"Aren't you going to kiss me good night?" he asked, hesitating a little between the words.

"Please, Mark! I am terribly tired out, and—and I'm afraid I've mislaid the key, and—"

That hurt him; his eyes darkened with a quick pain that came to him from her words. He had hoped that Gloria had known him better than that.

"You need never lock your door against me, my dear," he told her gently. "I don't want you to be afraid of me. I am going to sit by the fire and think. Just to soak myself in the realization," he added with a happy laugh, "that you are mine."

"Before you go in the morning you will come to my door?"

"If you want me to. . . ."

"Of course, Mark."

"Then—good night, dear."

"Good night, Mark."

King was astir long before dawn. While water heated and bacon sizzled, he rummaged through the storeroom at the rear of the house, gathering what he meant to put into his pack for the four or five days' trip. As he returned from the last journey to the storeroom he confronted Gloria, fully dressed. He dropped his arm-load and filled his eyes with her. Gloria had come down.

"Gloria!" he cried.

(TO BE CONTINUED.)

King of the Clouds

Fashionable Ladies of Equatorial Africa.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

RUWENZORI, one of the world's queerest mountain masses, has been scaled by a Belgian expedition entirely in Belgian territory, according to reports from the Belgian Congo in which a part of the mountain lies. The feat, not hitherto accomplished, required a climb of more than 16,000 feet of difficult, trailless jungle and rocky slopes.

Ruwenzori is unusual in its very situation. It lies almost immediately under the equator, surrounded by rank, steaming tropical forests and sun-drenched plains covered with tall elephant grass; yet it pushes its peaks up to eternal snows. Nowhere else are there comparable heights under the equator, rising from the heart of a continent. The Andes of Ecuador, relatively close to the coast, and the mountains of the island of New Guinea are the closest competitors.

Weather conditions do their part in contributing to the strangeness of this African mountain mass, and in throwing an almost literal veil of mystery around it. The peaks are hidden to observers from the plains and forests by clouds and fog except at rare intervals. As a result, the definite existence of the mountains was unknown to Europeans until 1864 when Sir Samuel Baker, while exploring Lake Albert, saw "a blue mountain to the south." His observation went unverified until 1887 when Stanley saw the peaks and made known the fact, for the first time, that they were snow-capped. It was not until more than a decade later that the snow line was first reached; and the crests were not attained until 1906 when the duke of the Abruzzi led his expedition to the top.

The name, Mountains of the Moon, is believed to have arisen from a mistaken translation from Arabic; but it has fitted well into the atmosphere of mystery that surrounded Ruwenzori for centuries; and it has a figurative justification because of the weird appearance of the mountain slopes. The relatively few white men who have made the arduous climb have all noted the impression that they had blundered into some alien world. The combination of excessive moisture, altitude and equatorial sun has produced a unique vegetation that in many ways is utterly fantastic.

Vegetation Is Extraordinary.

After emerging from the dense tropical forests of the lower slopes, a climber feels like a Lilliputian visiting the meadows of Brobdingnag. He walks among parsley plants nine feet high, "bird-seed" three times his height, and heather plants, relatives of the low Scottish shrub, that have expanded into great trees 70 and 80 feet tall. To add to the weirdness, colored mosses—brown, yellow, green, white and red—are all about under and overhead. They grow in huge cushions that encircle the limbs of the heath trees like giant mushrooms impaled on a skewer. The unearthly appearance is heightened usually by fog, through which the strange growths loom dimly; and there is a continual drip of water from limbs and moss clumps. The way often leads through swamps and muck up to one's knees.

Above the heath forests, on less swampy ground, giant lobedias cover large areas, sending their spikes up to twenty feet or more. All about are a variety of weeds, grown almost to the magnitude of trees. Further up are thickets of bamboo through which progress is extremely difficult. The highest slopes, just below the snow line, are covered with a thick growth of everlasting flowers.

Except on its lowest slopes Ruwenzori is uninhabited, and above the tropical forests there is not much animal life. The soggy heath forests are almost devoid of animals, birds and insects. On other parts of the slopes, where sparse animal life is found, it forms a queer assortment: a few small mountain antelopes; leopards that prey on them; hyraxes, which are harelike conies; fruit-eating bats with a "wing-spread" of two feet; and a few birds and insects.

The name, Ruwenzori, was selected by Stanley as the most common among a large number of native designations. It has been interpreted as meaning "King of the Clouds" and "Rain-maker."

Really a Mountain Range.

Ruwenzori is not a single mountain, but a "pocket-size" range. With its foothills it is approximately 60 miles long and 30 miles wide. The naming system that has been followed is rather complex. Topping the mountain mass are six explored groups of snowy peaks, and a few other heights not yet climbed. Each group is given a name as a mountain, and each peak is then separately named. From north to south the snowy mountain groups which have been climbed are Emin, Gessi, Speke, Stanley, Baker and Luigi di Savoia, each named for an explorer of Ruwenzori itself or of neighboring portions of Africa. Mount Luigi di Savoia bears the name of the duke of the Abruzzi. Mount Stanley is the highest of the six snow-capped groups. All four of its peaks—Margherita, Alexandra, Elena and Savoia—are more than 16,000 feet high, and exceed by several hundred feet the peaks of the neighboring groups. Margherita peak forms the crest of Ruwenzori, with an altitude of 16,816 feet above sea level.

Numerous small glaciers extend down from the snowy peaks to about 14,000-foot level, and from them trickle many streams. From whichever side the drainage comes, it finds its way into the surrounding lakes and rivers and flows, through Lake Albert, into the Nile. Ruwenzori thus fulfills the ancient tradition: it is the "Mountain of the Moon" on whose white crests Egypt's life-giving river is born.

The portion of Ruwenzori lying north of Mounts Emin and Gessi has never been climbed. In addition to making a survey of the western slopes of the entire range, the Belgian expedition plans to climb the peaks of this northern region and to obtain definite information in regard to their heights.

Odd Facts About the Equator.

While Ruwenzori's snow has been a popular "hard to believe" subject, there are other facts about the world's hot line that are, perhaps, equally as strange.

For example:

The equator crosses no deserts.

The equator does not touch continental Asia.

Less than one-fourth of the equator traverses land.

The equator cuts Africa nearly in half, traversing the middle section of Kenya, severing the northern third from the Belgian Congo and bisecting the tongue of French equatorial Africa which, with Angola, nearly squeezes the Belgian Congo off the Atlantic coast.

In the 2,300 miles across equatorial Africa there are no deserts but torrid jungles, some parts of which are so canopied by trees interlaced by vines that only pencil-like rays of sunshine penetrate. In this region the traveler meets with naked, black, kinky-haired tribesmen, and such unfriendly beasts as wild elephants, lions and hippopotamuses.

Just below Ruwenzori's western slope is the bailiwick of the Bambute pygmies, shy, diminutive folk of the jungles, and beyond is the domain of Bantu tribes, some of whom relish human flesh. The Masai, among the world's fiercest natives, inhabit the regions to the east of the mountain.

Between the western coast of Africa and the coast of South America, the equator crosses no land. In the mouth of the Amazon it traverses Mexiana island and then plunges into 2,000 miles of jungle land, almost as impenetrable in places as the jungles of Africa.

South America's Jungle.

Equatorial South America is the land of Indians of yellowish and reddish hues with straight hair which is cut as though soup bowls had been applied to the natives' heads as guides for barbers' scissors. The largest animal is the tapir, and ant eaters are abundant.

At the eastern base of the Andes, the equatorial traveler meets the Jivaros, natives who are proud of their art in shrinking human heads to the size of an orange, with the hair and skin intact.

From their hot jungle homes, the Jivaros can see the snow-capped Andes of Ecuador and western Brazil. Quito, capital of Ecuador, nestles in the Andean hills, about fifteen miles south of the equator.

The equator begins its trans-Pacific "flight" by crossing the Galapagos islands and then makes a long jump to the East Indies where it traverses Celebes, Dutch Borneo and Sumatra, missing Singapore, the nearest point of continental Asia by only 90 miles. These regions are inhabited by brown-skinned natives, some of whom show traces of Mongolian, Hindu and Malayan blood.

From Sumatra westward, the equator touches no land until it strikes Kenya, East Africa.

POULTRY

OPEN SEASON NOW FOR WAR ON PESTS

Get Rid of Mites and Collect More Eggs.

By C. F. PARRISH, Extension Poultryman, North Carolina State College.
WNU Service.

During the rush season, owners of farm flocks of poultry forget the birds and as a result mites and lice get to work with a resulting decrease in the number of eggs laid, and the effort of the chickens to roost on a tree limb rather than in the poultry house.

This is the season when the annual war begins between mites on the one hand and eggs on the other. Poultrymen act as spectators but pay a stiff admission price to witness the battle. Neglect of the flocks at this time invites enemies of good poultry husbandry to get busy, and chief among these is the well-known mite. The insect infests poultry houses, usually hiding away under the perches during the day but preying upon the birds at night, sucking their blood, lowering their vitality and thereby decreasing egg production.

Here are some of the ways in which mites may be eradicated. First, do not nail down the roost poles fast to the supports. If they are nailed, knock them loose. Then spray the roosts, and the whole house, if needed, with old burnt cylinder oil mixed with equal parts of kerosene.

Second, paint or spray the roost with carbolineum, as recommended in Farmers' Bulletin 801 of the United States Department of Agriculture. Past history shows that mites have won every war in which they have engaged unless outside aid is given, and now that every source of farm income is needed by the owner, time should be given to eradicate poultry parasites to the extent that the birds may give their highest production.

Hatchery Best Method of Maintaining Flock

There are three principal ways by which poultry flocks are maintained from year to year. These are: the sitting hen, the farm incubator, and the hatchery; and the most satisfactory source of chick supply is the hatchery, because of the fact that the whole problem of brooding, rearing and production, being on a highly uniform basis, is simplified.

A farmer is not really in the poultry business until he has at least 100 laying pullets. A flock of at least this size makes it possible for him, particularly if located near a large market, to sell his eggs direct to the retailer, getting the benefit of higher prices than are possible when eggs are sold through the usual trade channels.

To ensure a pullet flock of 100 birds in the fall it is necessary to start with around 250 chicks. Where chicks are purchased from the breeder hatchery or the commercial hatchery any desired number can be started at a given time, and the problem of management, brooding, rearing and feeding is simplified. What is more important, the pullets in the flock mature at the same age and go into the laying house in a condition suited to high production.

Darkens Hen Nests

Hens on the George Wehrman farm, Sumner county, Kansas, used to break a lot of eggs. Hens ready to go on the nests would fly on the steps and fight with hens that were on the nests and the result was cracked and broken eggs. Mr. Wehrman stopped that loss by attaching burlap to the top of the nests and letting it hang down over the front. Now hens fly to the end of the step, walk along the step until they find an empty nest and enter it, instead of trying to take a nest that already is occupied. Seemingly a hen doesn't like to have her feathers ruffled. That is what happens to her if she backs against the burlap to fight another hen. It is probable that the darkness created by the burlap also has a tendency to lessen the fighting. —Capper's Farmer.

Poultry Hints

Provide roosts for the young growing birds. When these are available they will not pile up at night and smother in the hot corners of the brooder houses.

* * *

Providing plenty of shade for the yards is one way of protecting the flock from the hot weather. If there is not sufficient natural shade, artificial shelter can easily be provided with boards, canvas, or brush.

* * *

Prevention is the safe way to raise turkeys. Keep the old birds away from the young. Hatch eggs in an incubator.

* * *

There is no profit in feeding hens which do not lay, and this is the season when many decide to go on vacation. Learn to pick out the slackers and sell them for meat.

* * *

Feeds which are processed the least and which represent more nearly the whole product are safest to use when making a chick ration

RED CROSS PROVIDES FLOUR FOR NEEDY

Timeliness of Red Cross relief in the distribution of flour milled from government wheat is cause of praise throughout Arizona, says Governor George W. P. Hunt in a letter to A. L. Schafer, manager of the Pacific branch office in San Francisco. The governor graphically pictures what he terms a serious situation in the state of Arizona. He says:

"I have no criticism to offer concerning the distribution in our state of the Red Cross flour milled from government wheat, made available through the Congressional Act. I have heard nothing but praise for the manner in which it as been handled and for the timeliness of this relief to our unemployed.

"In our state, our unemployment situation has been rendered much more acute and serious by the fact that many thousands of workers in our copper industry have lost their employment due to the curtailment of production. These people have little opportunity to raise gardens or other food products, as is the case in the agricultural communities.

"I appreciate very much the allocation of this flour which has been made to Arizona. I assure you that our condition is serious and I request a continuance of the maximum allotment to this state. It is sorely needed.

"I fear that our situation this winter will be rendered much worse, as was the case last winter, when thousands of unemployed transients poured into our state to escape the colder climate of the east and north. If this situation again develops, we will certainly need all the outside help that we can get."

"If a man is sober enough to run away from a policeman he is not drunk enough to be fined," ruled Police Judge Dodd in dismissing a charge of drunkenness against a defendant in Springfield, Mo., recently.

Foster the Printing Industry and Welfare of San Mateo County

Keep the home wheels turning by placing your orders with firms that have the union labels and their plants in San Mateo county.

Dollars paid to residents will return to you through orders and their purchasing power.

If you value our patronage, request the printer to place this

TYPOGRAPHICAL UNION LABEL SAN MATEO CAL.

on your printing.

It costs nothing but the asking.

San Mateo Typographical Union No. 624

GOVERNORS OF NEW YORK

From the earliest times the governors of the state of New York have included among their number personages of national as well as state importance. Three of them, Martin Van Buren, Grover Cleveland, and Theodore Roosevelt, became Presidents of the United States.

Two others, Samuel J. Tilden and Charles E. Hughes, missed the Presidency by the narrowest of margins. Many believed that Tilden was defrauded of the Presidency by the electoral commission of 1876. Horatio Seymour and Alfred E. Smith were also candidates for President, both being decisively defeated. Now Franklin D. Roosevelt is the Democratic candidate, making the eighth New York governor to be nominated for the nation's highest office.

Other New York governors who attained high national prominence include John Jay, first Chief Justice of the United States; DeWitt Clinton, Senator, William L. Marcy, Senator and Secretary of War; W. H. Seward, Secretary of State under Lincoln; and Charles E. Hughes, Secretary of State under Harding and Coolidge, and now Chief Justice of the United States Supreme Court.

So, while all governors of the Empire state have not reached the ultimate goal of their ambitions, it appears that that office is a very desirable stepping stone to higher political preferment.

RAILROADS AND BUSES

Complete Federal regulation of interstate passenger bus operations, such as now is imposed on the railroads, and Federal licensing of motor trucks engaged in interstate commerce, are urged by the Interstate Commerce Commission, in a report to Congress which also recommends that the railroads and water lines be encouraged to operate buses and trucks wherever their use in highway transportation would result in more efficient service.

This would be one method of solving some of the tax problems of the railroads. For example, according to Stratton Shartel, Attorney General for the State of Missouri, thirty-five states tax railroads more per mile than Missouri, but in 1931 railroad tax valuations in that state reached the enormous figure of $282,000,000.

If publicly built highways could be largely substituted for railroad taxable real estate, one of the greatest handicaps of the railroads in competition with other forms of transportation would be removed, unless bus and truck taxes were greatly increased. Without such increase the change would be tough on the public treasuries.

When Malthus predicted the eventual overpopulation of the earth he was unable to forsee the era of automobiles, gunmen and synthetic liquor.

A Canadian gentleman reports the loss of $45 taken from his trousers pocket while he slept. The case is greatly complicated by the fact that he has no wife.

This inventing business is going too far. An Austrian has devised a contraption whereby eight kettle drums can be played at once.

In Memphis a man knocked a girl down when she tried to kiss him. She must have been one of those whose best friends won't tell her.

THOUSANDS upon thousands are looking at all three lowest-priced cars. Driving all three. And they're buying more and more new Plymouths.

They are finding, in the smartly styled and impressive Plymouth, roominess and comfort beyond their expectations.

They marvel at patented Floating Power. No vibration. Smoothness with economy.

They tell you, enthusiastically, that any car without Floating Power is out-of-date.

The new Plymouth is their choice, not because it is modestly priced, but because it is today's more-for-the-dollar car.

With patented FLOATING POWER, *12 models ranging from $495 to $785. All prices F. O. B. Factory. All enclosed models wired for Philco-Transitone radio without extra cost. Duplate Safety Plate Glass is available on all models at slight extra cost.*

A WONDERFUL MACHINE

Human bodies are frequently referred to as machines. In a certain sense they are machines, but they possess properties not usually found in machines fabricated from inanimate materials.

In the first place, the human machine, and that of other animals as well, has the peculiar faculty of repairing and renewing itself if nature is given a fair chance. In the second place,the living machines can function even though many of their parts are entirely missing.

Just how far they may go in this respect is hardly appreciated by the layman who has not given thought to the subject. Dr. J. F. Erdman, of New York City, recently gave some information along this line by enumerating a few of the parts which may be spared without destroying one's usefulness. He reminds us that one "may go about his work minus a leg, an arm, an eye, his tonsils, appendix, gall bladder, one kidney, part of his lungs and brain, and as much as twelve feet of his intestines."

Recent developments in surgery have made possible operations on the heart, the entire removal of one lobe of the lungs, and modifications of other organs formerly thought indispensible in their intact state.

In some cases science has been able to fit us up with spare parts which function almost as well as the original ones.

A MATRIMONIAL TANGLE

One of the strangest matrimonial mixups on record is reported from Pittsburgh. Two years ago John Murphy and Frances Jones wanted to get married, but on account of Murphy's extremely youthful appearance he feared to apply for a marriage license, so a friend named Leffingwell volunteered to secured the coveted document in Murphy's name, which was done.

To complete his good turn, Leffingwell also went through the marriage ceremony with Miss Jones, representing himself to be Murphy, then turned the happy bride and wedding certificate over to Murphy and called it a day, according to the story.

Later on, meditating no doubt over his friend's happiness, Leffingwell took unto himself a bride of his own, but their matrimonial bark soon went on the rocks of incompatibility and a divorce was the result. Meditating again, Leffingwell was reminded that he had really been married to the supposed Mrs. Murphy, confronted her with the fact, and suggested that she fly with him. She flew. Tiring of wedded life for the second time, Leffingwell flew again, but alone. In the meantime Murphy has also disappeared.

Now Mrs. Murphy, or it may be Mrs. Leffingwell, if either, finds herself in a predicament and is asking these questions: Has she a husband at all? Or has she two? Or if only one, which? And why?

FARMERS ARE THE BIG FACTOR

When it comes to the dairy industry, we hear more about the distribution of milk products than of the farmers who do the actual producing. But, from the economic standpoint, the distributors are pretty small fry when compared to the farmers.

The dairy industry represents an investment of about $10,250,000,000. Of this amount $9,000,000,000 represents the farmers' investment in land, buildings and equipment. The distributors' investment is the balance—or $1,250,000,000.

In other words, the three million farmers who own the cows and the farms and produce the milk, are a good deal more important than the thirty thousand distributors, even though the later are necessary to the business. Yet, the farmer gets the short end of the stick. When prices are reduced, the cut is usually taken out of his share. As a result, at a time when millions of farmers are losing money and few are making profits, other factors in the dairy industry are making as large a untit profit as they ever did.

NEW HOPE FOR COPPER

The price of copper recently advanced, due to reports that the world's leading producers had virtually reached an agreement to cut output to 20 per cent of capacity from the existing 26½ per cent.

This was made necessary by the steady accumulation of stocks of the metal, which reached a new high record of 800,000 tons a fortnight or so ago. Copper executives felt that the outlook for the metal was brighter as the result of a series of conferences held by the producers.

Anything that will help place the mining industry on a sounder status will benefit the nation—and particularly the western, metal-producing states. For many moons copper has been selling, along with other metals, at profitless prices—and the result of that has been felt in unemployment, a drop in tax receipts, in the complete shutdown of once important mines. The industry is passing through a crisis and the hopes of the West will be with it. The mines made the West, in the beginning—and its future is largely involved with the future of metals.

A monument is proposed for the man who invented postcards. The inscription might appropriately be, "Wish you were here."

A doctor declares that fasting for fifteen days will restore one's basic metabolic rate. If you care for that sort of thing.

We invent about three thousand new words every year, yet often find it difficult to express ourselves in parliamentary language.

THIS ROBOT EVEN REPORTS TO ITS BOSS BY TELEPHONE

A robot which not only operates a pumping station but also reports by telephone to a distant office has been devised by engineers of the General Electric Company. The appliance automatically starts an alternate pump if one gets out of order, and, when the operator dials the telephone number of the plant, it transmits a series of long and short buzzes that tell which of the pumps is in operation, whether water is pumping into or out of the reservoir, what the water pressure is, and the height of the water level.

The only country in which regular slave markets still exist is Arabia.

NEWS NOTES OF PERSONAL INTEREST

Mr. and Mrs. A. Hansen, of Acton street, motored to Monterey on Labor day.

Mrs. S. E. Kinney and family, of Mission street, spent last week end visiting with relatives in Santa Cruz.

Mr. and Mrs. J. W. Cook and son Jack, of Frankfort street, spent last week end visiting with friends at Boyes Springs.

Mrs. Arnold Lunt, of Clement street, was a luncheon guest at the home of Mrs. W. F. Dorn, of Risel street, last Friday.

Ray Stacey, George Felsch, Sr., and George Felsch, Jr., all of Risel street, motored to Rockaway Beach on Labor day and spent the day fishing.

Misses Anne and Hannah Soderquist, of Brunswick street, accompanied by Miss Drusilla Felsch, of Risel street, spent last week end at Capitola.

Mr. and Mrs. Charles Gunther, of Winchester street, entertained Mr. and Mrs. Gus Ford and Mr. and Mrs. Perada on Thursday evening of last week.

Miss Betty Moses, of Minneapolis, arrived on Labor day at the home of her mother, Mrs. J. E. Walker, of Frankfort street, where she will visit for the next month or so.

Mr. and Mrs. W. F. Dorn, of Risel street, entertained Mr. and Mrs. Roy Fields and daughters, of Geneva avenue, at dinner last Sunday and enjoyed an evening at bridge.

Mr. and Mrs. J. W. Allen and children, of Winchester street, motored to Tracy last Saturday afternoon, accompanied by Miss Gladyse Johnson and Mrs. Vera Henderson, to spend the week end.

Donald Welsh, of Hanover street, is in a local hospital suffering from injuries received when he had the misfortune to fall down the back stairs of his home on Thursday of last week. At present writing Donald is still quite ill.

The many friends of Mr. and Mrs. Gussie Suhr, of Pittsburgh, Penn., are extending congratulations upon the birth of a son, born last Tuesday morning, September 6. Mrs. Suhr was formerly Miss Helen Hart, of Los Banos avenue. Gussie Suhr is the first baseman of the Pittsburgh Pirates, and is well known on the coast, he being a native of San Francisco.

Mrs. Wilson Flowers, of San Bruno, visited with friends in Daly City on Thursday of last week.

Mr. and Mrs. B. Cashion and twins, Lois and Leroy, of Westlake avenue, recently moved into their new home in Palo Alto.

Mr. and Mrs. Carlesen and family, of Hanover street, enjoyed a week end outing in Sacramento, where they attended the State Fair.

Rev. and Mrs. James Sturgis, of Chico, spent last week end as the house guests of Mr. and Mrs. J. E. Walker, of Frankfort street.

Mr. and Mrs. R. L. Crane and daughter Lila, of Woodrow street, motored to Petaluma last Sunday and spent the day visiting with relatives.

Charles Norry, of Oliver street, and Horace Fellows, of Niantic avenue, motored to Oroville, where they spent a delightful week end in dove hunting.

The many friends of Mr. and Mrs. Wilbert Stinger, of Citrus avenue, are extending congratulations upon the birth of a son, born on Friday, August 26.

Commander W. F. Dorn, of Risel street, returned from Sacramento, last Friday evening, where he attended the thirty-third encampment of the Veterans of Foriegn Wars.

Howard Clifton, of Winchester street, a delegate to the thirty-third encampment of the Veterans of Foreign Wars from Old Glory Post, returned from Sacramento last Friday evening.

Mrs. E. Moeller and daughter Mary Ellen, of Calexico, were house guests of Mrs. Moeller's sister and brother-in-law, Mr. and Mrs. C. Page, of San Diego avenue, the latter part of last week and over the Labor day holidays.

The members of the Veterans of Foreign Wars have organized a band. The members of the band meet in the San Mateo high school to receive musical instrutcion. Anyone interested may get information from their local Post.

The members of Longfellow Girl Scout Troop No. 34 are organizing a drill team, directed by Mrs. Frances Harris, assisted by Mrs. Charles Strugnell. A whist party for the benefit of the Troop will be held on Monday evening, September 19, at Corinthian Hall, Mission and Russia streets, at 8:15 oclock.

A marriage license was issued last Wednesday in San Francisco to Freeman Bussey, 26, of Daly City, and Catherine Causey, 26, of Los Angeles.

M. Pechenino, of Brunswick street, returned recently from Sacramento, where he attended the thirty-third encampment of the Veterans of Foreign Wars.

The members of the Well Baby Clinic will hold a benefit whist in the home of Mrs. L. Landini, 408 Winchester street, on Thursday evening, September 22.

Mrs. E. C. Boyle and son Eddie, of Winchester street, spent last Wednesday with her mother, Mrs. W. R. Patterson. They enjoyed a delicious luncheon, after which they attended a show.

Mr. and Mrs. W. Nassano, of Risel street, accompanied by friends, left last Saturday evening for Stockton, where they spent the week end and Labor day holiday visiting with friends.

Last Tuesday night Mr. and Mrs. Anthony Albera, of San Francisco, entertained Mr. and Mrs. H. Sari and Mr. and Mrs. Joseph Albera, of Risel street, and Mr. and Mrs. W. Burns, at a dove dinner.

The Woodrow Wilson-Vista Grande Parent-Teachers' Association will hold a candy sale in the two schools at noon on September 13. Those who have promised candy, please bring to school Tuesday morning.

The Woodrow Wilson-Vista Grande Parent-Teachers' Association regular board meeting will be held at the home of Mrs. F. P. Callsen, on September 15, at 12:30 P. M. Officers and chairmen are urged to be present.

Miss Norma Denevi, of Hanover street, was taken to St. Joseph's hospital last Tuesday night, where she underwent an operation early Wednesday morning for appendicitis. At present writing Miss Denevi is resting very nicely.

The members of the Crocker P. T. A. will hold a whist party in their club rooms on Wellington avenue on Thursday evening, September 15. Mrs. F. Coen will be in charge of the game and assures all who attend a pleasant evening.

Mr. and Mrs. William J. De Vanie, of Bellevue avenue, were hosts at a dinner, last Sunday night, given in honor of Mr. De Vanie's birthday. The guests were Mr. and Mrs. Harry Nelson and family, Miss Virginia Nelson, Jack Spani, and Mr. and Mrs. Eggert.

Mrs. Claire Pechenino, of Brunswick street, accompanied by Mrs. Ethel Dorn, attended a dinner in the Hof Brau last Sunday night, given in honor of the national officers of the Veterans of Foreign Wars, who are visiting here from Iowa, Ohio, and Minnesota.

Mr. and Mrs. Eugene De Rigne, of Niantic avenue, accompanied by Mr. and Mrs. W. F. Dorn, of Risel street, were guests at a party given by Mr. and Mrs. Roy Fields, of Geneva avenue, last Saturday night. Card playing and dancing were enjoyed during the evening.

Joseph Albera and Henry Sari, Sr., of Risel street, accompanied by A. Albera and W. Burns, motored to Ripon last Saturday, where they enjoyed the week end in dove hunting. The hunters returned home last Monday evening with a fine bunch of doves to their credit.

The members of the Crocker Parent-Teachers' Association will hold their reguar monthly meeting at the Crocker club rooms at 12 Wellington avenue, on Tuesday, September 13, with Mrs. J. E. Walker presiding. A speaker has been engaged for the afternoon. You are urged to come and bring an interested friend and enjoy an afternoon with the members.

Mr. and Mrs. Huchbull and children, missionaries of East Portugal, Africa, who have been guests at the home of Mr. and Mrs. Paul Meeth and daughter Pauline, of Mountain View, for the past week, enjoying a well earned furlough, motored with Mr. and Mrs. Meeth to the home of Mr. and Mrs. N. Meeth, of Westlake avenue, and spent last Sunday as their dinner guests. After dinner the group enjoyed a visit to Golden Gate Park.

The members of the General Pershing Parent-Teachers' Association held their regular monthly meeting in the school house last Tuesday afternoon, with Mrs. K. McDermott, the vice-president, presiding in the absence of Mrs. Mabel Urton, the president. It was decided to hold a whist party on Tuesday, September 20, in the afternoon, in the school building. Mrs. E. C. Boyle will be in charge of the arrangements.

I want to thank the people of Daly City for the splendid vote given me at the primary election.

JOHN F. DAVIS.

Bassler: "I'm worried—it's raining and my wife is down town."

Rhodes: "Oh, she'll probably step inside some store."

Bassler: "That's just it."—Pathfinder.

SAN MATEO COUNTY'S "MEMORIAL PARK"

The following poem is dedicated to Supervisor Thomas Hickey, who in 1923 proposed the purchase of a 310 acre tract of land situated along Pescadero Creek, a few miles below La Honda, for a County Park—and further proposed the name of "Memorial Park" for same, in memory of our over-seas boys. Those boys who laid down their lives for their country that the great principles of world safety for its inhabitants might continue.

We of San Mateo county are indeed a privileged people to have such a magnificent place, where God has shown such wondrous grace. Our citizens should be proud of this park, for it is surely an inspiration to mankind.

TO OUR MEMORIAL PARK

Down where our county is in the making,
And for development it is fairly aching,
There's our Memorial Park.
There the sunbeams, soul entrancing,
Through the leaves and trees are glancing,
Where the babbling streams go dancing;
There's our Memorial Park.

To the boys whose lives were shattered
For Democracy—their flags were tattered,
Hence our Memorial Park.
There let's go to fret no longer,
There let's bind our friendship stronger,
Where man's a man and not a wronger;
In our Memorial Park.

Here's the spot to attract your attention
With life's phases, too numerous to mention,
In our Memorial Park.
Here Mother Nature has given her fairest,
Here Mother Earth responds with her rarest,
In our Memorial Park.

Here the spirits of ages are singing
In the tall redwoods, swaying and swinging,
In our Memorial Park.
Man's finest mold—these trees of our county,
California's own—as God's richest bounty,
Now as an emblem, in San Mateo county,
In our Memorial Park.

Come to our grove, where God seems nearer;
There you may roam where life seems dearer,
In our Memorial Park.
There life's cares sure cannot reach you,
There God's purpose cannot but teach you;
Come, yes come, again I beseech you,
To our Memorial Park.

M. JENSEN.

September 9, 1932.

"ARE YOU SURE!" IS SERMON TOPIC

Many people suppose they are Christians. Rev. John R. Stevenson will preach both Sunday morning at 11 o'clock and Sunday evening at 7:45 on this topic. Grace Presbyterian church is located at Hanover and Evergreen, and strangers are always welcome at the services. The young people's meeting is at 7 P. M., and the Sunday School at 10 A. M.

GREAT MYSTERY SOLVED!

For the past six weeks there has been some very mysterious actions committed by various men, all up and down the peninsula. After much shadowing, snooping and listening at keyholes, the great mystery has been solved. It was at first noticed that every Wednesday evening, about 7 o'clock, men were seen sneaking out of dark doorways, carrying parcels of various shapes and sizes. After looking furatively around they were seen to either start running for a street-car, or, in some cases, after a bit of waiting, these men were observed getting hastily into darkened limousines, that slid noiselessly up to the curb and, with hardly a stop, with sometimes a quick "hurry!" by someone inside the car, they shot into the night, bent on another mysterious mission, another night of crime?

You guessed it; band practice.

Every Wednesday at 7:15 P. M., the San Mateo Peninsula V. F. W. band, under the able supervision of Comrade Hillings, of Sherman, Clay Co., meets in the San Mateo Junior College. Get behind this band and give them a boost. Go to rehearsal on Wednesday evening, even if you don't wish to join. All V. F. W. members on the peninsula are eligible; so let's join up, and make this "some band." Come on, be one of the jolly crowd.

SPLINTERS

From the H. H. Smith Lumber Yard

VOLUME 5 FRIDAY, SEPTEMBER 9, 1932 NUMBEF 7

Published in the interests of the People of Daly City and vicinity by H. H. Smith and Employees.

In Subject A
Distressed Professor: "Why don't you answer me?"
Frosh: "I did shake my head."
D. T.: "Well, did you expect me to hear it rattle way up here?"

How True
Man is but a worm. He comes along, wriggles a little in the dust, and then some chicken gets him.

Ring us up when you need Building Material.

Piatt: "Make a sentence with paradise in it."
Kavanaugh: "It got a paradise that pay my rent."

Just ring us up when you need Building Material.

"Daddy, why is that man running up and down the smoking car with his mouth open?"
"My son, that is a Scotchman getting a free smoke."

Where, Oh Where
Officer: "You were doing forty-five. I'll have to pinch you."
Mary: "Oh, if you must, please do it where it won't show."

You can rent a house, but when you own it, it becomes a Home.

Power of Suggestion
Tom: "Why are your socks on wrong side out, Bob?"
Bob: "My feet were hot and I turned the hose on them."

Sure Dope
Sweety: "What is a sure cure for seasickness?"
Salty: "Give it up."

A stumbling block is only a stepping stone to a real man.

Young Son: "What is an airpocket, Dad?"
Father: "Mine, just after your mother has gone through them."

Look trouble in the face and laugh at it. P. S. Forget this advice in case your wife or boss happen to be your trouble.

We sell good paint and are always prepared to advise as to the kind that is best adapted to your needs.

Most girls think a ring on the hand is worth ten on the telephone.

When a wife reigns she sometimes storms.
